

# HAUTE COUTURE

BESPOKE DESIGNS

# COLORTEK®

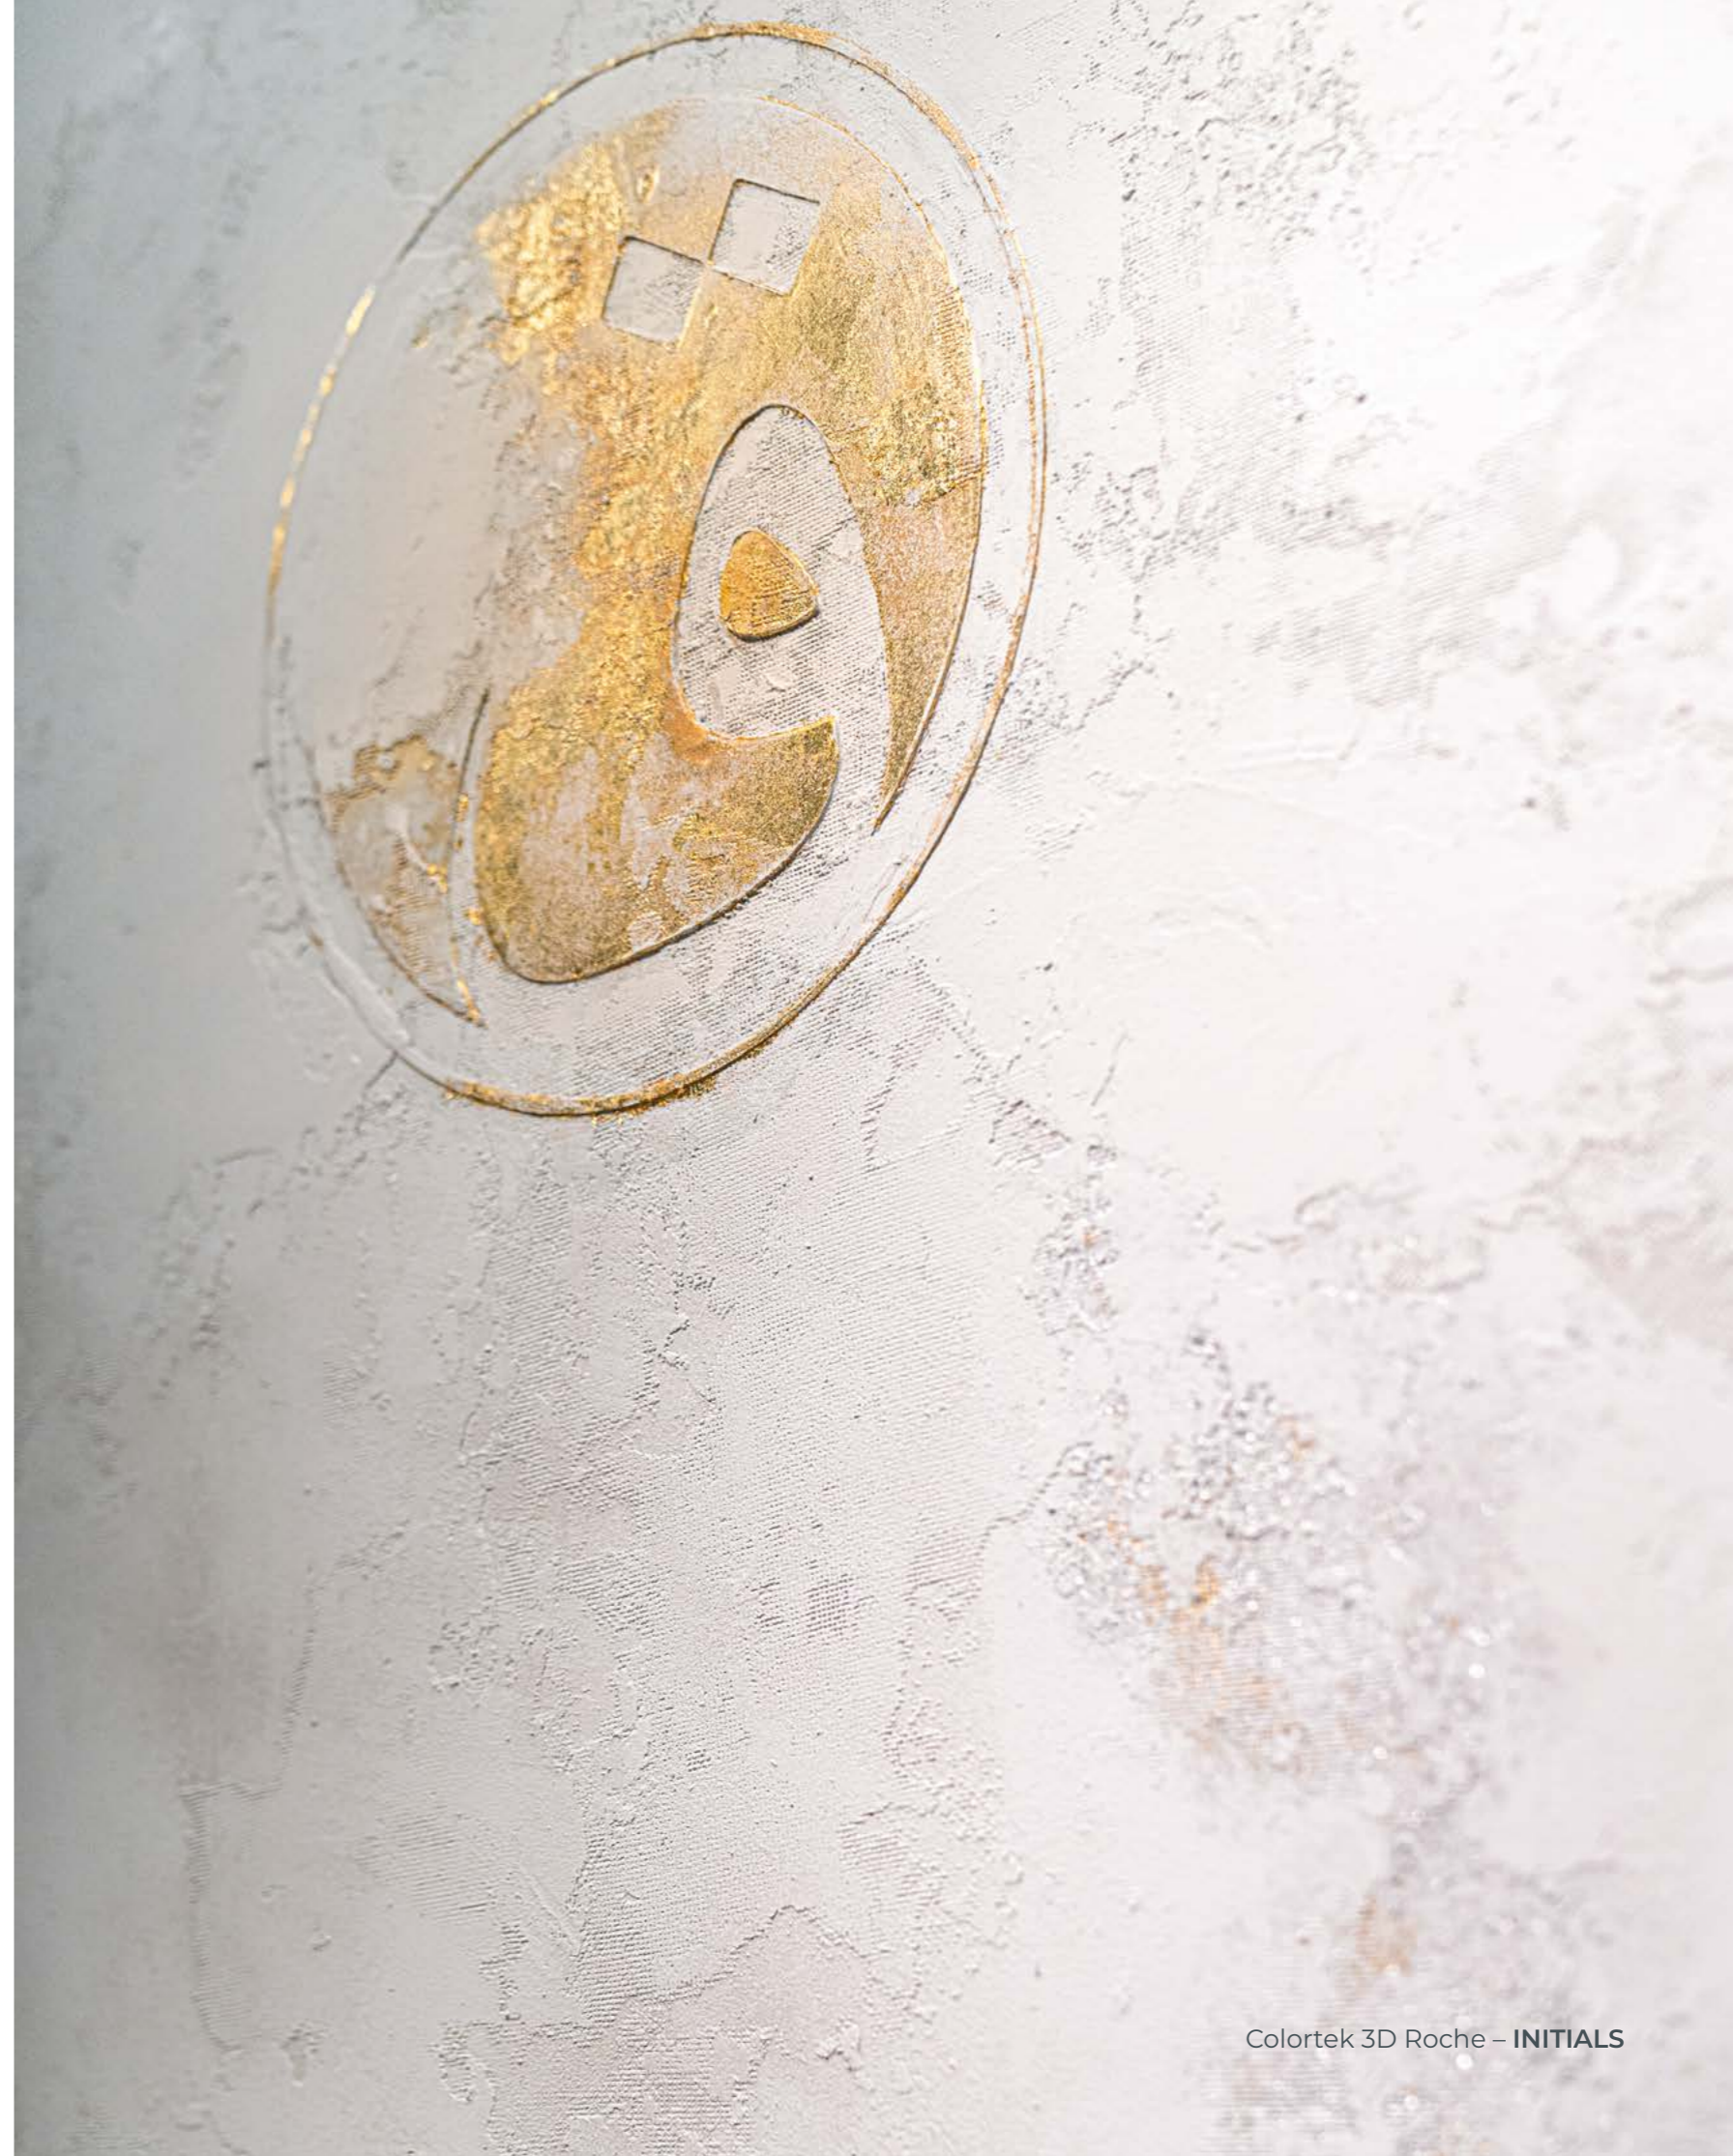

To those whose skills and craftsmanship are carved in our story  
"Yahya Kassaa"

## THE ESSENCE OF COLORTEK®

Innovative, technology-led craftsmanship is at the core of the Colortek® Haute-Couture Collection, where refined and carefully developed products seamlessly blend technique and design to create one of a kind decorative effects.

Organic shapes, matte to metallic textures and bold colors are signature elements of this collection, each piece featuring a curated selection of beautiful items that match the authenticity of the space we envision.

The result is a delicate balance of mismatched styles, celebrating our clients' diverse lifestyles and the spirit that defines Colortek's uniqueness: a colorful clashing of craftsmanship, technology, and design, artfully combined to reinvent decorative paints.

# Technical Information

The Haute Couture Bespoke Collection is made possible by Colortek® specialty decorative plasters which have unique physical properties that serve as the foundation for the designs imagined by architects and interior designers. These products can be combined with our complete range of decorative and architectural paints, thus providing creative studios with unlimited flexibility to create spaces infused with design-led craftsmanship.

Product	Typical Use	Thickness	Substrates
<b>TOILE TISSÉE®</b> Drum, Gallon & Quart 	Toile Tissée is a paste filler based on clay and lime organic raw material range. It is formulated to create 3-dimensional surfaces that provide absorbent substrates with flexibility and stiffness similar to what can be obtained with Gesso.	Up to 1 mm / coat	<ul style="list-style-type: none"> <li>■ Concrete</li> <li>■ Shuttered concrete</li> <li>■ Rendered cement</li> <li>■ Cement plaster</li> <li>■ Painted or unpainted walls</li> <li>■ Plasterboard</li> <li>■ Gypsum</li> <li>■ Primed Wood</li> <li>■ Canvas</li> <li>■ Paper</li> </ul>
<b>TERRE DE LUNE®</b> Drum 	Terre De Lune is a high-build paste filler based on organic clay and lime raw material. It is used to create realistic and complex decorative designs recommended for medium thickness textures.	Up to 3 mm / coat	<ul style="list-style-type: none"> <li>■ Concrete</li> <li>■ Shuttered concrete</li> <li>■ Rendered cement</li> <li>■ Cement plaster</li> <li>■ Painted or unpainted walls</li> <li>■ Plasterboard</li> <li>■ Gypsum</li> <li>■ Primed Wood</li> <li>■ Canvas</li> <li>■ Paper</li> </ul>

Product	Typical Use	Thickness	Substrates
<b>3D ROCHE®</b> Drum 	3D Roche is a special putty based on clay and lime organic raw material. It is used to create realistic dimensional and complex decorative effects and designs.	Up to 20 mm / coat	<ul style="list-style-type: none"> <li>■ Concrete</li> <li>■ Shuttered concrete</li> <li>■ Rendered cement</li> <li>■ Cement plaster</li> <li>■ Painted or unpainted walls</li> <li>■ Plasterboard</li> <li>■ Gypsum</li> <li>■ Primed wood</li> <li>■ Canvas</li> <li>■ Bricks</li> <li>■ Breeze blocks</li> <li>■ Paper</li> </ul>
<b>3D ROCHE+®</b> Drum 	3D Roche+ is a highly textured version of 3D Roche, based on clay and lime organic raw material used to create high-build decorative finishes and that give increased working flexibility. It is also used to mimic the effect of old vintage constructed walls.		<ul style="list-style-type: none"> <li>■ Concrete</li> <li>■ Shuttered concrete</li> <li>■ Rendered cement</li> <li>■ Cement plaster</li> <li>■ Painted or unpainted walls</li> <li>■ Plasterboard</li> <li>■ Gypsum</li> <li>■ Primed wood</li> <li>■ Canvas</li> <li>■ Paper</li> <li>■ Breeze blocks</li> <li>■ Bricks</li> </ul>
<b>Heritage Plaster®</b> Drum 	A special clay with lime powder. It is used to create realistic dimensional and complex decorative effects where thickness is required.	Up to 30 mm / coat	<ul style="list-style-type: none"> <li>■ Concrete</li> <li>■ Shuttered concrete</li> <li>■ Rendered cement</li> <li>■ Bricks</li> <li>■ Breeze Blocks</li> </ul>
<b>Mode Plaster®</b> Drum 	A special clay with lime powder. Mode Plaster can be used for a whole variety of creative activities. Easy to work with, it can be molded into solid, durable objects that can be decorated with paints or multi-surface markers. It hardens on exposure to air.	Up to 40 mm / coat	<ul style="list-style-type: none"> <li>■ Concrete</li> <li>■ Shuttered concrete</li> <li>■ Rendered cement</li> <li>■ Bricks</li> <li>■ Breeze blocks</li> </ul>

## Notice

Proper lighting should be directed towards the wall to bring out the metallic sheen of decorative finishes. Professional lighting was used to highlight the unique effects of each decorative effect showcased in this collection.

Bespoke effects should be applied by skilled and experienced artisans. The final appearance of the effect is highly dependent of the applicator's skills as well as of his/her experience in mixing colors, products and textures required to achieve the desired effects.
