

BITUMEN

Oxibond 4015
Waterborne emulsified bitumen.

زفت مائي.

Waterproofing of block works or roofs over asphalt, concrete, and cement rendering.

Oxibond 4020
Solvent based bitumen.

زفت نפטلي.

Waterproofing of block works or roofs over asphalt, concrete, and cement rendering.

CEMENTITIOUS

Oxibond 4004
Plastic cement additive.

رزين مقوي للإسمنت.

To be mixed with cement plaster and powder putty.

Cement Slurry
Economical cement slurry for under-tiles, tanks and exposed areas.

مانع للتسرب، إقتصادي.

• Waterproofing
• light pedestrian areas
• horizontal concrete surfaces

Waterproofing Solutions
From Basement To Roof

POLYURETHANE MEMBRANES

Oxibond 4500
One-pack, water-based polyurethane membrane.

عازل بوليورثاين مائي.

- Light traffic areas
- Cool roof technology
- Thermal insulation
- Resistant to water and frost

Oxibond 4250
One-pack, solvent based polyurethane membrane.

عازل بوليورثاين نפטلي.

- Medium traffic areas
- Thermal insulation
- Crack-bridging up to 2mm
- Resistant to detergents, oils, and common chemicals

Oxibond 4300
Potable Polyurethane membrane.

عازل بوليورثاين متخصص لقنوات وخزانات مياه الخدمة والشفة.

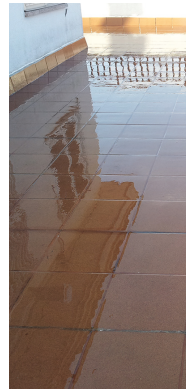

- For water supply channels, pipes, tanks, and reservoirs
- Resistant to water and frost
- Full surface adherence
- Odorless

Oxibond 4300 Pool
Polyurethane membrane.

عازل بوليورثاين متخصص للحواسن السباحة.

- For swimming pools, fountains, water tanks, and water channels
- Resistant to frost
- Resistant to abrasion and wear
- Easy to apply.

Oxibond 4900
Transparent elastomeric polyurethane membrane.

عازل بوليورثاين مطاطي شفاف خاص للسيراميك الخارجي.

- For roofs, balconies, terraces, and tiles
- Resistant to water, frost, and UV rays
- Crack-bridging properties that provide water vapor permeability
- Resistant to detergents, oils, sea water, and domestic chemicals

Oxibond 4600
Solvent based, cold-applied, cold-curing, bitumen extended polyurethane membrane.

زفت بوليورثاين مانع للنش خاص للأساسات الأبنية.

- For foundations, retaining walls, under-tiles, terraces & roofs
- Supplied in black color
- Excellent thermal resistance
- Does not need the use of open flames (torch) during application

ACRYLIC

Oxibond 4001

Clear acrylic waterproofing solution.

عازل اكريليك شفاف مانع للنش.

- For building facades
- Anti-carbonation properties
- Crack-bridging
- Stops the growth of mold and fungi

Oxibond 4002

White acrylic waterproofing solution.

عازل اكريليك أبيض مانع للنش.

- For building facades
- Anti-carbonation properties
- Crack-bridging
- Water & humidity repellent

Oxibond 4008

Food grade, one-pack, acrylic, high-build membrane.

اكريليك مانع للنش يصلح لخزانات المياه والأحواض الزراعية.

- For roofs, facades, under-tiles, food plants, potable water tanks
- Can be tinted
- Resistant to aging
- Non-toxic and non-flammable

Decorator Varnish

100% acrylic, clear, anti-carbonation protective varnish.

حماية شفافة مضادة للكربنة.

- For decorative finishes
- Available in flat, satin, and gloss finishes
- Crack-bridging properties
- Water repellent and stain resistant

SILOXANE

Hydroshield 4006

Clear solvent-based repellent for masonry.

حماية للحجر الصخري من دون طبقة نפטلي.

- For vertical rough and smooth stonework, brickwork, porous and semi-porous surfaces
- Ready to use
- Long-lasting protection
- Resistant to aging agents

Hydroshield 4007

Clear water-based repellent for masonry.

حماية للحجر الصخري من دون طبقة مائي.

- For vertical rough and smooth stonework, brickwork, porous and semi-porous surfaces
- Ready to use
- Long-lasting protection
- Resistant to aging agents

ASSOCIATED PRODUCTS

Oxibond 4750
Oxibond 4800
SX0 PrimeWell
SX9 HumiGuard
Epoxy primers.

أساس إيوكسي شفاف.

Sealing concrete and providing added grip to subsequent surfaces. SX9 HumiGuard also acts as a humidity barrier.

Oxibond 4100
Polyurethane elastomeric filler.

معدون بوليورثان مانع للنش.

For caulking and movement-joints sealing.

Oxibond 4950
Oxibond 4980

Fiberglass reinforcing mesh.

نسيج فيبرغلاس مقوي.

Reinforcing of joint and angled sections with Oxibond® 4250, 4500 and 4008, etc.

Oxibond 4420
Polyurethane top-coat.

طبقة بوليورثاين للحماية.

To be used on top of Oxibond 4250 for surfaces with high traffic. Can also be used on epoxy in exteriors to protect from UV rays.

Oxibond 4900 Top Coat

Polyurethane top-coat.

طبقة حماية ناشف تستعمل عند الحاجة فوق 4900.

Used for finishing over Oxibond polyurethane coatings when a matt finish is desired.
