

We create
decentralized on-site
water management
solutions.

OUR PRODUCTS

COMMERCIAL SYSTEMS FOR GREYWATER, RAINWATER & STORMWATER

The INTEWA product range for on-site water management provides the highest levels of performance and durability while being very easy to install and maintain.

AQUALOOP

Greywater Recycling System

The only greywater system with commercial NSF350 C certification for commercial and residential use.

PURAIN

Rainwater Pre-Filters

Maximum water catchment, best self-cleaning filter.

RAINMASTER & NUVO

Pumps, Controls & Accesories

Ultimate in ease of installation with lower installed cost and unsurpassed reliability.

PLURAFIT

Rainwater/Stormwater

Robust rainwater filter and components for residential use.

The AQUALOOP MBBR greywater recycling system is the only system that can purify water to the level of NSF350 C commercial and the BS 8525 European requirements.

PIONEERING ON-SITE WATER MANAGEMENT SOLUTIONS

ECOVIE specializes in greywater recycling, rainwater, and stormwater harvesting. We design on-site, commercial-scale integrated water management systems through a rigorous scientific approach to problem solving, our INTEWA technology, and select equipment suppliers. Additionally, we provide tools to engineers and technical support as needed to respond to specific design needs.

FLUSH WITH BENEFITS

Builds green buildings that foster healthier, more natural living

Supports compliance with codes, incentives, grants, and tax advantages

Enhances brand reputation through certifications such as LEED & LBC

Ensures a safe emergency water source during municipal disruptions

Cuts water bills and shields against future increases

Advances a low-carbon future

Boosts property value

EXCLUSIVE USA DISTRIBUTOR FOR INTEWA

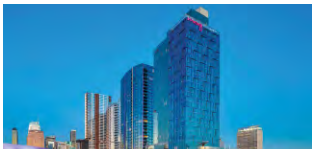

INTEWA develops and manufactures innovative products for rainwater collection, greywater recycling, and stormwater management. They have been manufacturing systems for over 30 years and have more than 3,000 systems installed in 20 different countries.

The AQUALOOP MB-MBR greywater recycling system is the only greywater recycling system tested and certified by NSF International to the NSF 350C standard.
