Soho Office Phone Booth

By MEAVO

A single-person phone booth crafted for private calls and uninterrupted work.

Soho Office Phone Booth | Highlights

Privacy you can count on

Our world-class soundproofing blocks a wide range of frequencies, ensuring unmatched privacy. Work with confidence in a quiet, distraction-free environment designed for focus and productivity.

Posture-friendly design

The Soho features a custom shelf designed for comfort - whether standing or seated on a barstool. Its height supports a natural posture, reducing strain during calls or focused work sessions.

Fresh air, without the noise

The Soho's quiet ventilation system keeps air circulating, maintaining a cool, comfortable interior that helps you stay focused and refreshed throughout the whole year.

Power when you need it

Stay connected and fully charged. The Soho features a full range of charging ports, including USB-A, USB-C, a power socket, and Qi wireless charging.

Soho Office Phone Booth | Design

With ample space, a cosy interior, and world-class soundproofing, the Soho provides a quiet sanctuary for **private phone calls and focused work.**

Space is at a premium? The Soho is a compact office phone booth that fits seamlessly into any workspace - delivering privacy and productivity without taking up unnecessary room.

The Soho features a thoughtfully integrated shelf, designed to provide ample workspace for devices and essentials.

Featuring an integrated power outlet and a wireless charger, it provides comfort and efficiency throughout your workday.

Workstation

By MEAVO

A private office in the office,
custom-built for longer **conference
calls and deep work sessions.**

Workstation | Highlights

Certified soundproofing

World-class soundproofing blocks a wide range of frequencies, ensuring unmatched privacy. Work with confidence in a quiet, distraction-free environment designed for focus and productivity.

Ergonomic design

The Workstation features a spacious, optimally positioned desk that supports a natural posture and fits a standard office chair — creating a healthy, comfortable setup for long calls or focused work.

Superior ventilation for extended calls

The Workstation's advanced ventilation system refreshes the air inside the booth every minute, maintaining a clean, fresh, and comfortable environment. Perfect for long work sessions or extended calls.

Lighting that keeps you focused

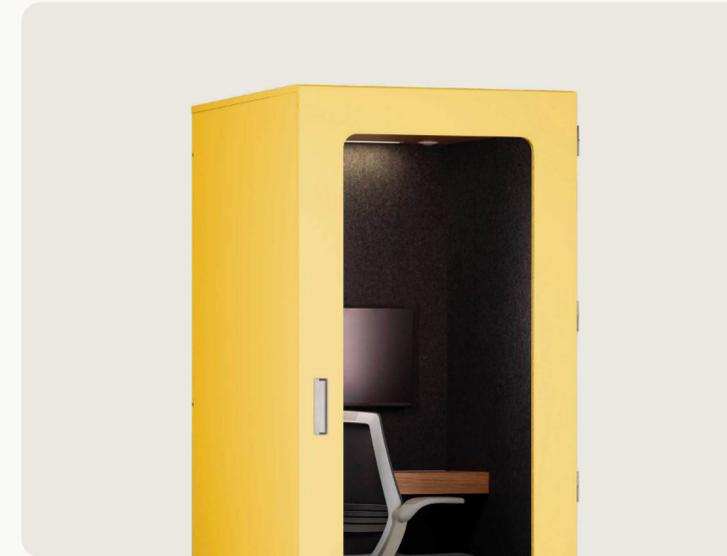

Bright enough to keep you alert, soft enough to reduce eye strain. The Workstation's energy-efficient LED lighting ensures comfort and focus through the longest work sessions.

Workstation | Design

Designed for comfort and efficiency, the Workstation's compact, ergonomic design makes it perfect for any workspace.

Combining functionality with style, it offers ample space to accommodate all your gadgets. The interior is thoughtfully made of sound-absorbing PET panels with low-maintenance hardwearing and durable carpeting, making it both practical and functional.

The Workstation features a thoughtfully integrated deep table, offering ample workspace to keep your devices and essentials neatly organised.

Fully equipped with modern connectivity, keeping devices powered and calls seamless — without interruptions or downtime.

Camden Meeting Pod

By MEAVO

Available in 2 and 4 person configurations

The ideal meeting pod for **team meetings and catch-ups.**

Camden Meeting Pod | Highlights

Privacy you can count on

World-class soundproofing blocks a wide range of frequencies. The Camden Meeting Pod provides a calm, sound-insulated space where teams can meet without distractions - supporting clearer communication and more productive conversations across the office.

Ergonomic design

The Camden Meeting Pod features two built-in benches upholstered in premium Camira fabric, offering comfortable, supportive seating and promoting natural posture for focused, productive meetings.

Superior ventilation for team meetings

The Camden Meeting Pod's advanced ventilation system refreshes the air every minute, keeping the space fresh, and comfortable. Ideal for long meetings or extended discussions, it helps everyone stay focused and comfortable.

Lighting that inspires collaboration

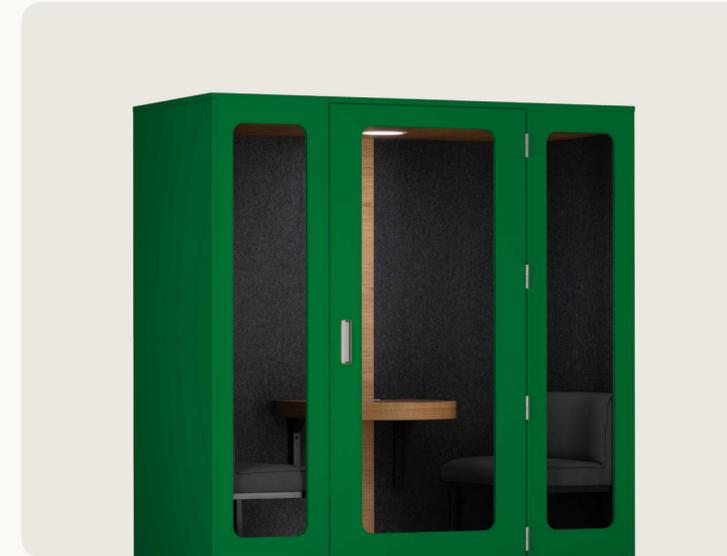

Bright enough for clear visibility, soft enough to reduce eye strain. The Camden Meeting Pod's energy-efficient LED lighting creates a comfortable, focused environment for meetings and collaborative sessions.

Camden Meeting Pod | Design

The Camden Meeting Pod is a stylish and functional pod designed for **collaborative meetings and focused discussions**.

It provides a comfortable and professional environment for team interactions. The interior is thoughtfully made of sustainable sound-absorbing PET panels with low-maintenance hardwearing and durable carpeting, making it both practical and functional.

The Camden features a thoughtfully integrated table, providing ample space to place laptops, gadgets, and other essentials neatly.

With integrated power outlets for convenient access, it ensures comfort and efficiency throughout your meetings.

Haven One

By MEAVO

A premium single-person phone booth combining ample space, a cosy interior, and world-class soundproofing.

World-class soundproofing

Our premium soundproofing blocks a wide range of frequencies, ensuring unmatched privacy. Work with confidence in a quiet, distraction-free environment designed for focus and productivity.

The comfort of natural materials

The interior is crafted from premium and sustainably sourced natural materials. The natural oak ensures a cosy yet professional ambiance for focused work and private conversations and exudes a sense of calm and elegance.

Superior ventilation for extended calls

The Haven One's advanced ventilation system refreshes the air every minute, keeping the space fresh, and comfortable. Ideal for long calls or extended discussions, it helps you stay focused.

Lighting tailored to every task

Motion-activated LED lighting and LED light strips provide optimal brightness for any task. Whether focusing on detailed work or preparing for a video call, Haven One ensures the perfect lighting to support productivity.

Haven One | Design

The Haven One is a **fully equipped booth with a compact design**, making it the perfect addition to any workspace.

Designed with durability and sustainability in mind, it features a lightweight yet robust structure crafted from premium materials, ensuring high performance without compromise. The interior is thoughtfully made of sound-absorbing PET panels with low-maintenance hardwearing.

The booth's panels add a touch of elegance and the glass panels on both sides ensure plenty of natural light.

Haven One also includes built-in features such as a durable oak shelf with an integrated power outlet to meet everyday office needs.

By MEAVO

A premium one-person focus pod designed for **deep work and seamless video calls.**

Haven Focus | Highlights

Privacy you can count on

World-class soundproofing blocks a wide range of frequencies, ensuring unmatched privacy. Work with confidence in a quiet, distraction-free environment designed for focus and productivity.

Ergonomic design

Designed with your comfort in mind, the booth features a deep desk for personalised use. An ergonomically designed office chair is available as an add-on, providing extra support during long work sessions.

Ultra-silent ventilation

Haven Focus's advanced ventilation system refreshes the air inside the booth every minute, maintaining a clean, fresh, and comfortable environment. Perfect for deep work or extended calls.

Lighting tailored to every task

Motion-activated LED lighting and LED light strips deliver the right brightness for any task, from detailed work to video calls. Separately controlled video lighting ensures optimal conditions for conference calls.

Haven Focus | Design

Haven Focus is a **compact and ergonomically designed booth**, making it a perfect fit for any workspace.

Combining functionality with style, it offers ample space to accommodate all your gadgets. The booth's scratch-resistant oak veneer panels add a touch of elegance and the glass panels on both sides ensure plenty of natural light accompanies the stylish design.

The interior is thoughtfully made of sound-absorbing PET panels with low-maintenance hardwearing and durable carpeting, making it both practical and functional.

Haven Meeting Pod

By MEAVO

Available in 2 and 4 person configurations

A premium meeting pod, designed for **group meetings and collaborative video sessions.**

Haven Meeting Pod | Highlights

Natural light

The Haven Meeting Pod lets in soft, natural light through triplex acoustic glass panels, creating an airy and welcoming workspace. At the same time, the panels keep noise out, ensuring a calm, focused environment for work or team meetings.

Designed for long meetings

The Haven Meeting Pod features two built-in benches upholstered in premium Camira fabric, offering comfortable, supportive seating for productive meetings. Designed to promote natural posture, the benches help you stay comfortable throughout.

Superior ventilation

The Haven Meeting Pod's advanced ventilation system refreshes the air every minute, keeping the space fresh, and comfortable. Ideal for long meetings or extended discussions, it helps everyone stay focused and comfortable.

Lighting tailored to every task

Bright enough for clear visibility, soft enough to reduce eye strain. The Haven Meeting Pod's energy-efficient LED lighting creates a comfortable, focused environment for meetings and collaborative sessions.

Haven Meeting Mod | Design

The Haven Meeting Pod is designed for **focused collaboration and productive discussions.**

The two glass sides introduce openness and natural light, while the enhanced lighting ensures clarity and comfort for meetings and video calls.

The Haven Meeting Pod features a thoughtfully integrated table, providing ample space to place laptops, gadgets, and other essentials neatly.

With integrated power outlets for convenient access, it ensures comfort and efficiency throughout your meetings.

Trees planted in Madagascar

Sustainability at the core

Our booths are designed with a commitment to sustainability, blending eco-conscious practices with exceptional performance:

- ✓ Over 800 recycled plastic bottles are transformed into the acoustic felt used in every booth, effectively reducing plastic waste.
- ✓ The main frame is crafted entirely from natural, wood-based materials, eliminating the use of plastic or metal and prioritising reusable resources.
- ✓ Modular construction promotes extended product lifecycles, reducing waste and resource consumption.
- ✓ Built with high-quality, durable materials to ensure longevity and minimise the need for replacements, further supporting environmental responsibility.

Sustainable production and waste management

At MEAVO, we prioritise environmental efficiency in every step of our processes:

- ✓ Renewable energy powers production where available, reducing carbon emissions.
- ✓ Advanced resource optimisation minimises waste, with leftover materials recycled or repurposed.
- ✓ Modular, fully recyclable components extend product life and reduce environmental impact.

Our commitment to eco-friendly practices is backed by globally recognised certifications, including ISO 14001:2015 for Environmental Management Systems and the prestigious EcoVadis Gold Star rating.

Certificates and recognitions

Commitment to sustainability through globally recognised certifications:

- ✓ **Ecovadis Gold Medal**
Awarded the prestigious Ecovadis Gold Medal, we rank in the top 5% of companies worldwide for our dedication to impactful environmental initiatives and sustainable practices.
- ✓ **FSC-certified wood**
The wood used in our booths is responsibly sourced from sustainably managed forests. With FSC certification, we ensure that our products actively support sustainable forestry and global conservation efforts.
- ✓ **ISO 14001:2015**
for Environmental Management Systems.

Sustainability

Forest Stewardship Council

Certified for responsible forestry and sustainable material sourcing worldwide.

EcoVadis sustainability rating

Recognised for excellence in sustainability through rigorous global ratings.

Transportation

Our logistics are designed to minimise environmental impact at every step:

- ✓ Made-to-order production reduces waste and ensures optimal use of resources.
- ✓ Compact, modular designs enable tighter shipping loads, further cutting transport emissions.
- ✓ Packaging is entirely paper-based, ensuring easy recycling and alignment with sustainable practices.

Environmental contributions

Every booth sold directly contributes to our sustainability initiatives:

- ✓ 15 trees planted to support reforestation and combat climate change worldwide.
- ✓ 2 solar lamps donated to families in Zambia, bringing clean, renewable energy to underserved communities.

Certificates

MEAVO is fully certified, ensuring **sustainability, quality and safety**.
Driven by world-class standards.

Certificates

ISO Compliance

Our management systems have been certified according to:

- ISO 9001:2015 - Quality management systems
- ISO 14001:2015 - Environmental management
- ISO 27001:2022 - Information security
- ISO 45001:2018 - Occupational health and safety

Our products have been certified for electromagnetic compatibility (EMC), according to IEC 60335-1:2020.

Certificates

All our phone booth models have been tested according to **ISO 23351-1:2020** - Acoustics - Measurement of speech level reduction of furniture ensembles and enclosures.

DIN EN 1021-1:2014 - Smouldering cigarette
DIN EN 1021-2:2014 - Gas flame (match flame equivalent)
