

ACTEA^{MAX}

 **Gesab**[®]
guarantee for the future

Design meets Technology

ACTEA is the most advanced control platform for control rooms. Ultimate design with a central column capable to adapt to any operator, to any need. Integral access for an intelligent maintenance. Innovation for the health of all users to have a unique experience, allowing sitting and standing labor in the same workstation. A new collaborative way of work. Ergonomics taken to the limit. Superlative innovation.

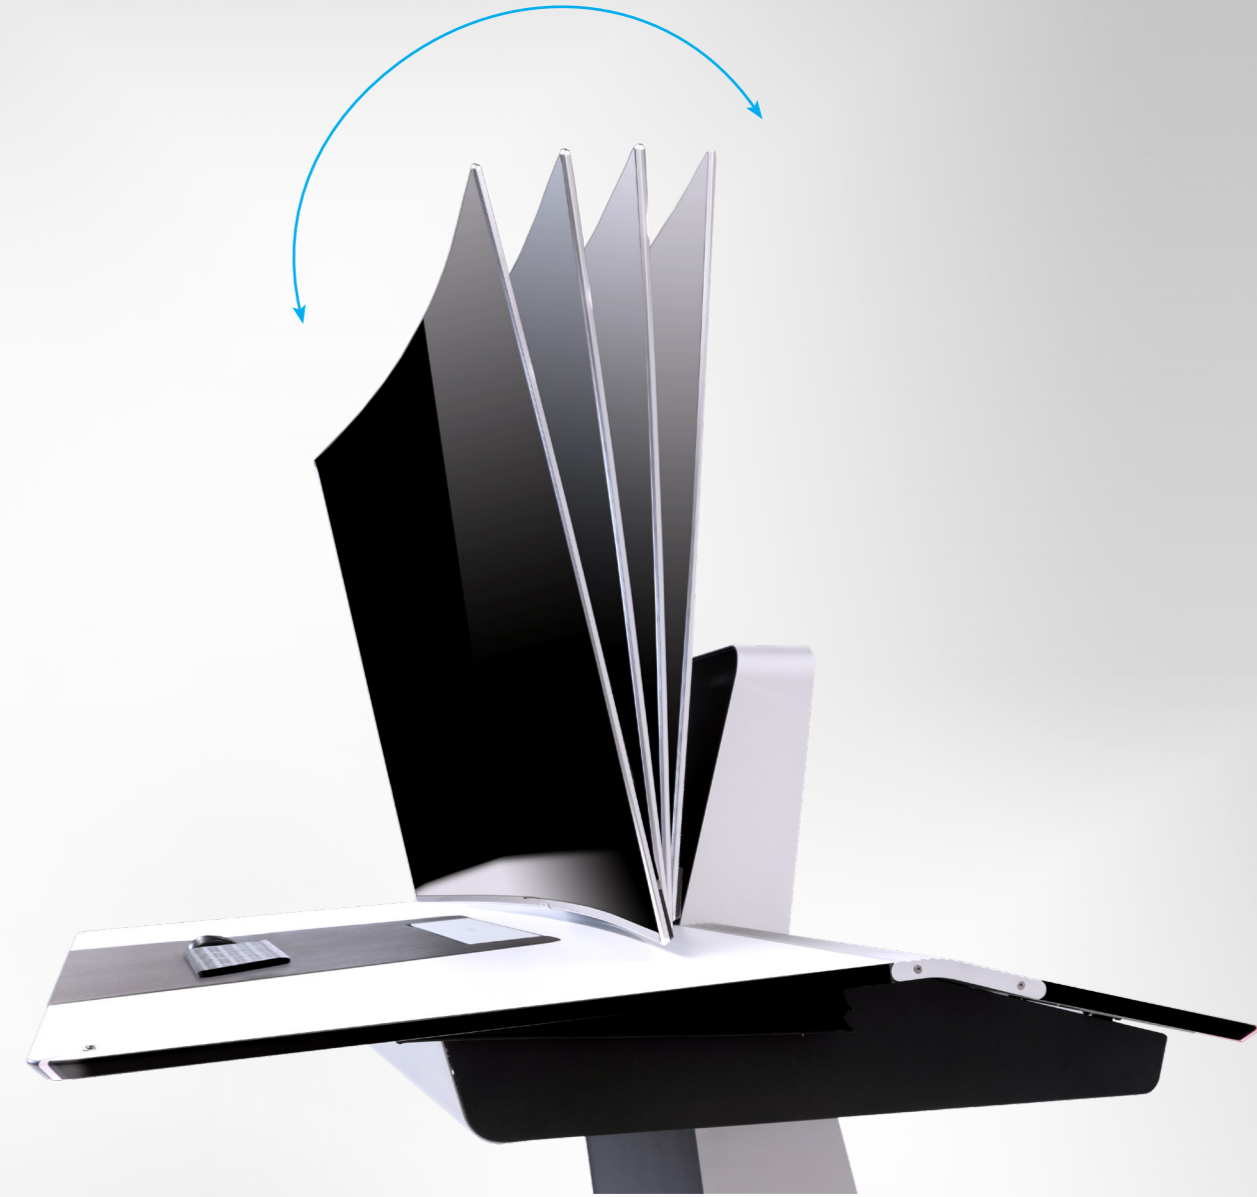

Ergonomics & Health

ACTEA is designed giving shape to the functional requirements and the most demanding characteristics and regulations, achieving a higher satisfaction and better user experience with lower effort. Completely adjustable, everything is at reach of the operator, in the precise place, to have everything under control.

Innovation taken to the limit

No other control console is like ACTEA Max. Every decision that goes into ACTEA makes it stand apart; the exceptional materials, the ultimate design, the functionality and ergonomics, the way it's made and the integration of different technologies.

Smart console

ACTEA Max combines the latest technology to offer each user smart and intuitive answers. Designed today for the challenge of the future, it will make you rethink what a control console is capable of.

Powerful. Beautiful. Future.

ACTEA Max is the most advanced, smartest and most powerful console that we have ever created. A revolutionary concept taken to the extreme. Design and ergonomics as an intrinsic part of the product, from its projection to the minimal definition.
