

ELEVATE

It's Time to Rethink the Walls Around You.

MODULAR BY DESIGN. PROVEN BY EXPERIENCE.

Elevated Cabinets Engineered for What's Next in Care.

Because Your Facility Doesn't Stand Still

Healthcare keeps moving. Tight budgets, evolving regulations, and a constant stream of patients demand spaces that adapt. Storage should make daily routines easier, support infection control, and create calm, organized environments for patients and staff alike.

That's why we developed the Case Systems **ELEVATE** wall-mounted cabinet line.

It's built to complement your fixed casework, adding flexible storage where your facility needs it most. Simple to install, easy to reconfigure, and backed by the same Case Systems quality you already trust.

FLEXIBLE.

CLEANABLE.

FUTURE-READY.

We've applied 75 years of casework expertise to meet the demands of today's healthcare environments. Case Systems **ELEVATE** delivers cleanability, reconfigurability, long-term value, and smart financial performance.

Bracket-mounted, modular, and made in the USA, these cabinets install quickly, clean easily, and evolve with your facility as needs change.

Whether you're planning a renovation or building new, Case Systems **ELEVATE** integrates seamlessly into your healthcare space.

Storage That Works With You

Enhanced Hygiene & Infection Control

HYGIENE WITHOUT HASSLE

- Elevated mounting eliminates floor contact.
- Sloped tops reduce dust collection.
- Sealed cabinets leave no open seams or gaps.

RESULT: Lower HAI risk, cleaner patient environments.

Optimized Workflow & Patient Experience

FUNCTION WHERE IT MATTERS

- Modular layouts maximize storage without clutter.
- Glove, towel, and trash integrations at point-of-use.
- Optimized space and workflow.

RESULT: Streamlined spaces that give staff more time for care.

Adaptability & Simple Installation

CHANGE-FRIENDLY BY DESIGN

- Efficient adjustment brackets.
- Seamless reconfiguration.
- Perfect for renovations or phased upgrades.

RESULT: Built for today. Ready for tomorrow.

Real-World Value & Faster Depreciation

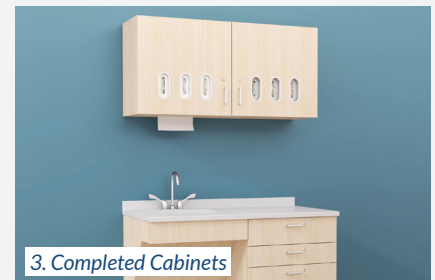

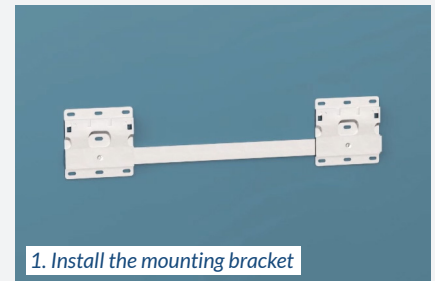

DESIGNED TO RESPECT YOUR BUDGET

- Classifies as furniture—not fixed assets.
- Depreciates over 7 years vs. 39.
- Durable, reconfigurable construction.

RESULT: Faster ROI with lower TCO.

Ask your Case Systems representative how quickly you can get started!

FLEXIBILITY THAT STARTS AT INSTALLATION

TOTAL COST OF OWNERSHIP (TCO)

- | | |
|---|--|
| <ul style="list-style-type: none">▪ Reduced Installation Cost
Bracket systems installs faster than fixed systems.▪ Faster Depreciation
Classified as furniture = quicker depreciation schedule (7 vs. 39 years).▪ Easier to Clean
No base to trap dust and debris.
Faster EVS routines = lower labor overtime. | <ul style="list-style-type: none">▪ Low Maintenance
Durable construction means fewer repairs and less downtime.▪ Easy Reconfiguration
Modular design allows relocation, reassignment, and reconfiguration without demolition. |
|---|--|

Built to perform and to pay-off.
