ABOUT CASE SYSTEMS:

While we have over sixty year of history in building casework, we're not your run of the mill casework shop. In fact, we are two companies under one roof. At Case Systems we manufacture Casework Solutions for students to learn, patients to heal, and athletes to perform better. Our sister brand BOSTONtec builds ergonomic height-adjustable workstations for some of the world's largest companies.

LONGEVITY - 60-YEAR EXPERIENCE

PRIVATELY HELD - FAMILY OWNED

PARTNER WITH CASE SYSTEMS FOR UNPARALLELED QUALITY AND EXCEPTIONAL SERVICE

Case Systems is your manufacturer to keep quality under control when the demand gets high. We have the capacity to handle most projects and preferences. We know your first priorities are maintaining a superior standard and on-time delivery for your clients. That's why we have systems in place to ensure both.

TAKING PRIDE IN WORKMANSHIP

METAL FABRICATION

Unlike most woodworking companies, we have full metal capabilities in-house and enjoy combining the two materials for creative solutions.

LIFETIME WARRANTY

You can trust that we stand behind our product and can offer lifetime warranty on our cabinet construction.

HIGH-VOLUME CASEWORK MANUFACTURING

In the race against time, it's good to know that we can manufacture many hundreds of cabinets a day for you.

ENGINEERING & PRODUCT DEVELOPMENT

Are you going beyond the box and thinking about future growth? Our full engineering and product development expertise ensures that you have a partner at your side who can take your business to the next level.

PROJECT MANAGEMENT

Your project gets the personal attention of one of our experienced Project Management Teams.

CUSTOM CAPABILITIES

Do your projects need a specialty cabinet or custom sizing? We will listen and design to your unique needs.

JUST-IN-TIME

We build to order and just-in-time. Every order is built just for you, and every order is special.

"We want our customer's experience to be one that positively impacts their life. That's our vision each and every day"
