Powder-Coat Finishes - Aluminum & Steel

*Our standard powder-coat colors come in semi-gloss, except Pitch Satin, Rust Texture, and Metallic colors.

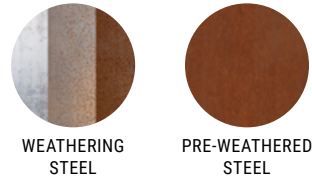

Greenscreen Trellis

Weathering Steel

Our weathering steel products are A588 and A606 grade, shipped un-weathered or pre-weathered.

Recycled Plastic

Our durable recycled plastic lumber, made from post-consumer milk bottles, is 90% recyclable and retains color with UV protection.

Wood

All wood species change color over time when exposed to UV light. Our wood products will arrive with a UV protectant oil, this can slow this process down.

Sustainability

Learn about our long-term commitment to impactful change and download environmental product declarations.
