

## Front Mounting Plus Bracket

The Front Mounting Plus countertop support bracket is designed for use in high-traffic or load applications such as commercial environments, shower benches or free-floating desks. This is achieved by the addition of a low-profile gusset that substantially increases the load rating on the bracket. It can be used to support an overhang up to 24".

This bracket mounts directly to the stud and also can be hidden from view.

## Specs

PRODUCT CODE: **FMP**

- Brackets are 2½" wide x ⅜" thick steel
