

Spanning Bracket

Just as the name implies, the Spanning Bracket is used when support is needed for a span of countertop where there's support on both ends, but nothing in between. This bracket is perfect for creating a floating desk between cabinets.

The Spanning Bracket is also used where you have overhangs on opposite sides of a support cabinet. If you have an overhang on three sides of a cabinet the spanning bracket can be substituted in the island system to provide support.

Specs

PRODUCT CODE: **SSB**

- Horizontal support is 2½" wide x ½" thick steel
- Length is 24" – 60", determined by customer
