[A] CANVARO

Proven, efficient and always at the right height. Our Canvaro electric motorized desk delivers effortless height adjustment, enabling a quick and smooth switch between seated and standing positions.

Learn more
ass.al/xnr84tj

Quick and quiet adjustment to the ideal working height

The powerful electromotive desk reaches the preferred working height in just 50 mm per second – and at a pleasantly quiet noise level of just 45 dBA.

Versatility for ergonomic work

The Canvaro sit-stand desk system is the ideal solution for every requirement. Available in a variety of frame variants, the desk series is designed to accommodate specific requirements. With its two elegant desk runners, Canvaro slips seamlessly into any office concept and creates an attractive look.

Electromotive height adjustment

Easy switch between a standing and seated work position.

Smart workspace design

Integrated, sound-absorbing Viteco partition and movable wall systems encourage focused work and turn Canvaro into the new favorite spot in the office. With the right office equipment, work materials and personal items can be neatly stored and stowed away at the workplace.

Modern office work surfaces

The partitions are easy to combine with all desks thanks to the wide selection of Viteco systems, sizes, materials and colours.

Viteco AS12

Office Equipment

For individual requirements

The numerous optional add-ons – including the Pontis technical container or the Flexter organisation rail – satisfy a broad variety of individual workplace requirements. Available in a wide range of decors and designs, the Canvaro is a stylish eye-catcher - for open-plan offices or even your own four walls.

Working in peace: With Viteco partition wall and Canvaro desk system

Also an eye-catcher in the home office: optionally with soft matt surfaces

[A] TENSOS

The Tensos sit-stand desk system blends ergonomics with modern design and comes with electric height adjustment for maximum flexibility in selecting the ideal standing or seated work position.

Learn more
ass.al/mtxlrje

The perfect blend of design and function

The stylish and height-adjustable desk catches the eye with its slender T-leg frame and comes with a wide variety of table top shapes and optional add-ons.

Ergonomic and flexible work

This sit-stand desk system can be combined and extended with an optional attachment solution for meetings. Available with a variety of frame variants, the table series is designed to accommodate specific requirements.

Versatile uses

Tensos is the perfect furniture solution for all kinds of office spaces. Whether in a single or group office, an open space or for working from home – the highly attractive desk slips easily into many different plans and designs to meet individual preferences and requirements.

Well organised:
The Flexter organisation rail enables flexible workspace organisation.

Smart solution for workspace connectivity

Tensos is optionally available with the Applica docking system for tidy cable management and optimised connections to the data network and power supply.

Working from home: For ergonomic home workspaces

Pared-down design: Ideal integration in any room concept

[A] TENSOS COMPACT

The Tensos Compact Bench solution makes efficient use of space. Generous work surfaces can be created as single, double or group workstations that are pleasant to work at.

Learn more
ass.al/yrofcw3

Perfect for office teamwork

The practical flexibility of the Tensos Bench solution enables you to construct large work islands that are perfect for modern office environments, where they support collaboration and promote creativity and the exchange of ideas.

Ergonomics meets design

This desk system can be individually adjusted to the correct working height by an electric motor and promotes movement at the workstation. Optional accessories and organisational elements allow you to set up this desk just how you want it.

Electromotive height adjustment

Electric adjustment for individual working heights.

Up/down operation

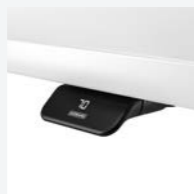

Up/down operation with LED display

Rocker switch with up/down operation and LED display

Ergonomic work: Individual height adjustment

Clever: Neat workspaces with the Flexter organisation rail

Adapts perfectly

The diverse range of optional equipment and accessories makes the Tensos Compact an ideal all-rounder for modern working environments. For example, sound-absorbing partition wall systems not only ensure privacy, but also help to improve the acoustics in the whole room.

Additional storage space in Pontis roller containers

Unobtrusive: cables can be tucked away neatly in the cable duct.

Beyond ergonomic

The huge variety of table tops and base frames let you customise this desk to suit the furnishings of the office and team workstations. The base frame can be optionally equipped with attractive side panels to conceal untidy cables.

[A] TENSOS VELO

Faster, quieter, twice as safe. Tensos Velo individual workstations and bench solutions combine the popular design of the height-adjustable Tensos desk with innovative motor technology.

Learn more
ass.al/33xqsl0

Rises in seconds

Our fastest height-adjustable desk. The Tenso Velo movement speed of 80 millimetres per second is faster than comparable models. Alternating between standing and sitting integrates movement into the working day and improves the ergonomics of a workstation. In this way, the Tensos Velo desk helps to improve health and well-being.

Safety first

The Tensos Velo is a safe place to work with its dual-safety electronic system combined with reliable collision protection. So you are one hundred percent safe – even in the event of a technical fault – letting you concentrate fully on more important things.

Top speed

Switch quickly between standing and seated work positions.

[A] PONTIS HYPA

The new battery-powered and height-adjustable Pontis Hypa table series delivers a variety of options for every requirement. A truly multifunctional option, the TÜV-certified tables enable limitless and creative use of the available space.

Learn more
ass.al/g40ibee

Maximum flexibility

Whether as a desk, seminar or bistro table – the electrically height-adjustable Pontis Hypa tables are optimised for ergonomic work in a standing or seated position. Fitted with casters, the tables can be moved quickly and easily to any location for flexible use.

Battery-powered, height adjustable sit/stand desk and bistro table

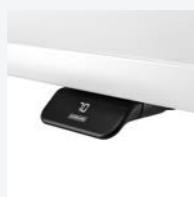

The Pontis Hypa tables are equipped with a high-end rechargeable battery with enough power for an entire working week and enables up to 50 cycles for changing between standing or seated workpositions for unbeatably healthy and ergonomic work.

Electric height adjustment

Easy switch between a standing and seated work position.

Up/down operation

Rocker switch with up/down operation and LED display

Up/down operation with LED display

Round tube
Height adjustment:
720 – 1370 mm

Charged USB port for convenient smartphone charging

Multifunctional and compact

The desk and seminar table is fitted with a folding table top to enable stacking after use and efficient storage. This improves the options for optimised use of the available space. Equipped with casters, Pontis Hype tables are easy to move to accommodate individual space requirements and room layouts.

For improved creativity

The folding table top is optionally available as a writable or magnetic whiteboard that can swiftly convert for group brainstorming sessions during workshops.

Space-saving: Folding table top for stacked storage

Magnetic storage box: With a range of accessories

[A] MONTEVO

The Montevo desk and conference systems blend attractive design with clever functionality. With extensive design functions and table tops, it is a tasteful furnishing solution for the most discerning users.

Learn more
ass.al/jeihc9i

Individual and flexible

The manually height-adjustable Montevo desk catches the eye with its modern, appealing design and variety of surfaces – from basic and premium to trendy colours and soft matt decors that add a personal touch to every office.

For greater diversity

Our Montevo comes with a modern look that is inspired by the design of our popular electromotive height-adjustable Canvaro and Tensos models. The Montevo table series can be customized with either a C-leg, T-leg or 4-leg.

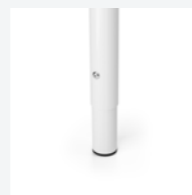

Manually height-adjustable

The height of the table top can be adjusted manually to suit the particular user.

*The mode of height adjustment depends on the frame variant (round or square tube).

Tool-less height adjustment
Rotating plastic inserts are used to adjust the table to the optimum height.

Allen key
Individual adjustment of the table height by Allen key.

Allen key
Individual adjustment of the table height by Allen key.

Stylish levers*
Tension levers are used to adjust the table height entirely without tools. The levers are delivered in the frame colour. Optionally available with gas spring operation.

Right: Round tube
Left: Square tube
Height adjustment: 650–880 mm

The perfect solution for every work environment

Montevo catches the eye with its modern design as well as its versatile options – as a single or double workstation and as a conference table.

[A] CANTARIS

Cantaris blends flexibility and mobility within a modern system: Lightweight, adaptable project tables that adapt to the needs of dynamic workflows in the blink of an eye. Ideal for everything – from spontaneous workshops and creative brainstorming sessions to flexible presentations and meetings.

Learn more
ass.al/q1h9pet

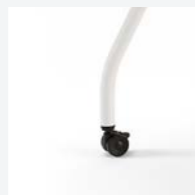

Monochrome look

The Cantaris series includes flexible desks at standing and sitting height as well as bistro tables that are predestined for agile workspaces. With seven trendy colours for frames and table tops, the furniture solutions enable harmonious and eye-catching tone-in-tone combinations that promote the well-being of employees. These workspaces encourage focused work as well as creative growth and development.

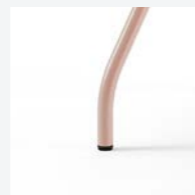

Two heights

The tables are available in standing or sitting height and offer a choice of glides or castors, to adapt flexibly to different workspaces.

Casters

Slider

Sophisticated concept for agile working environments

The tables radiate a modern, light look with their slender leg frames. Optional add-ons include a folding mechanism to enable compact storage to save space when required. Practical accessories such as bags and coat hooks complement the smart concept and transform the furniture into a versatile solution for any workspace.

Harmonious tone-in-tone combinations

Folding table tops for optimised storage

Suits any work environment

With their clear design vocabulary, the tables adapt to any working environment – whether it's in the office, in agile project rooms or as a modern eye-catcher when working from home. Practical accessories such as material and transport trolleys or whiteboard panels to visualise projects make the multifunctional series particularly suitable for all forms of agile, creative and productive collaboration.

[A] SOLOS

The Solos desks catch the eye with their elegant and purist design, high-quality materials, a suspended table top look and a slender and discreetly elegant leg frame.

Learn more
ass.al/5u2zz0s

Modern design

The pared-down engineering and unique design of the Solos raise the bar for attractiveness and functionality – whether as a Single workspace for the director’s office or group workstations in open-plan areas.

Modern solutions for various work configurations

Whether as a modern group space for inspirational teamwork or an elegant individual desk for periods of focus – the Solos desks are always a modern and attractive solution for any kind of requirement.

Manually height-adjustable

The height of the table top can be adjusted manually to suit the particular user.

Allen key
Individual adjustment of the table height by Allen key.

Tool-less height adjustment
A folding lever is used to adjust the table height entirely without tools.

4-leg frame type Rectangular tube
Height adjustment: 650–850 mm

4-leg frame type Rectangular tube
Fixed table height: 740 mm

Optimised configuration: For a stylish office at home

Function: L-shaped connections for additional workspace

Versatile work areas

Solos includes a broad range of products. Besides the desks, the family also includes modern meeting and conference tables. Whether as stylish conference tables, high desks for meetings or even in break and common rooms – the Solos tables will turn heads with their multiple variants and modern design.

[A] ACCESSORIES

We think about working environments holistically. That's why, in addition to ergonomic desk systems, we also sell matching accessories – from partition wall systems that act as privacy screens and help to improve acoustics throughout the room to stylish systems for organised workstation cable management.
