

Product Overview

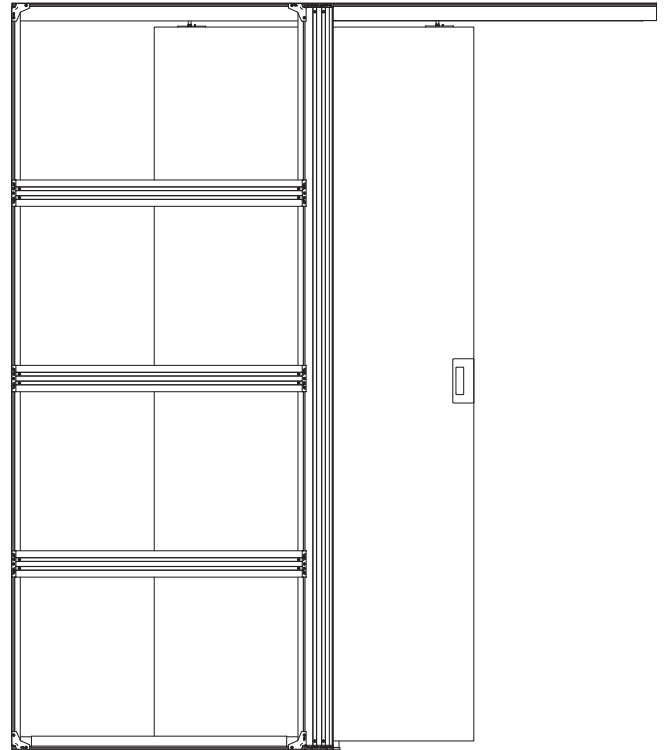

CS Cavity Slider® Pocket Door Frame

The **CS Cavity Slider®** is a **kitset pocket frame suitable for residential and commercial projects**. It is constructed from aluminum extrusions, making it structurally robust.

The frame can be cut down to suit your door size and is quick and easy to assemble. It is suitable for 1-3/8" or 1-3/4" doors and available with or without soft close.

Features

- Structurally robust due to its construction from aluminum extrusions
- Easy to assemble and install
- Available for 2x4 and 2x6 framing
- Can be cut down to size on site
- Suitable for residential and commercial projects (meets Type 1 construction code without any combustible materials)

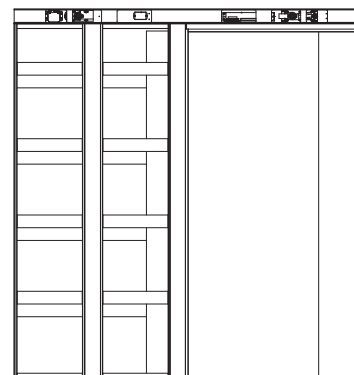

AutoCav™

With almost 40 years of experience in manufacturing pocket doors and a further 15 successful years in the automated sliding door market, Cavity Sliders offers the most advanced automatic pocket door system available.

Features

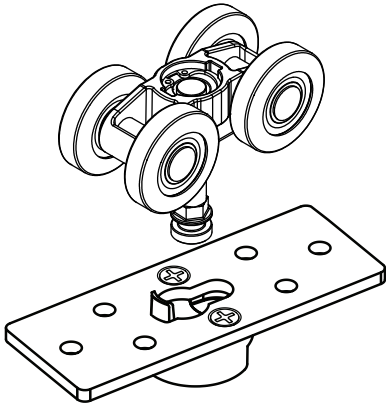

- Flexible Configurations: Available in Single and Bi-Parting options.
- Programmable Controller: Multiple standard operating modes.
- Safety Features: Safety beam, obstacle detection, and auto-reverse on obstruction.
- Access Control: Options include push buttons, sensors, touchpads, and swipe keys.
- Broad Compatibility: Works with most door types within size requirements.

Track Systems

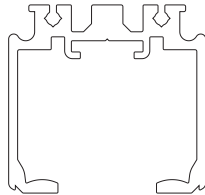

Our CaviTrack Range is a premier series of high-quality track and carriage systems for interior sliding doors.

Our systems are designed to work with our M6 (200lb) or M8 (500lb) carriage sets for a smooth operating, high quality, and reliable solution. Tracks are available with SofStop®.

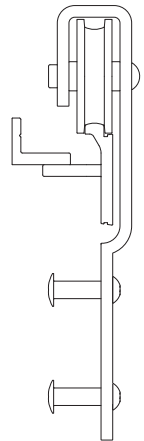

CS TopMountTrack

The CS TopMountTrack is a series of smooth-running low profile sliding door tracks suitable for incorporating into pocket door frame and bypass wardrobe assemblies.

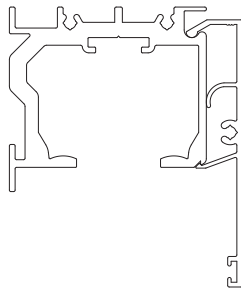

CS BarnDoorTrack

The CS BarnDoorTrack is a traditional barn door track suitable for surface sliding applications where there is enough strength in the wall to mount and support a side-track with door above the opening.

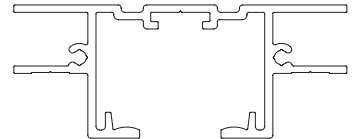

CS SideMountTrack

The CS SideMountTrack is an ideal surface sliding solution where vertical fixing space is limited. This system is side fixed through the track profile.

CS FH-CeilingMountTrack

The FH-CeilingMountTrack has been designed so that the base sits flush with the ceiling, allowing the sliding doors to span from floor to ceiling. The track design allows drywall to be fixed flush with the underside of the track.

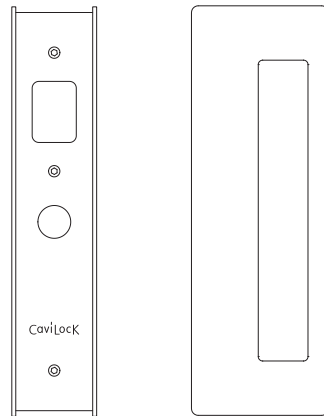

CaviLock®

Our CaviLock line provides a complete range of sliding door hardware specifically designed for use on pocket doors.

From high-quality commercial grade ADA compliant locks for restrooms through to residential privacy locks, CaviLock has a door handle that will suit your project.

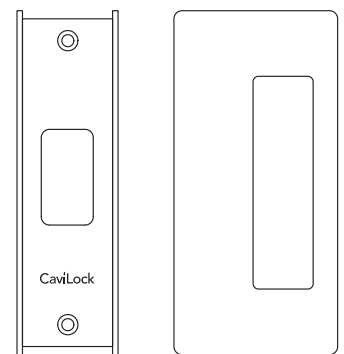

CL400 Magnetic

The CL400 Magnetic features a patented magnetic catch and plunger system. The range includes Passage, Privacy, Key Locking, and Bi-Parting (double door) configurations.

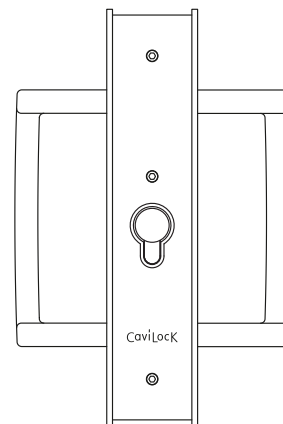

CL200 Range

The CL200 Range is a durable range of sliding door hardware suitable for residential, commercial, and hospitality applications. This handle is not handed.

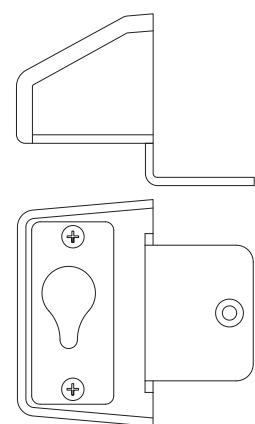

CL400 ADA Magnetic

The CL400 ADA Magnetic provides flexibility for building owners as it uses the same door cutout and striker as the CL400 Magnetic while meeting ADA requirements.

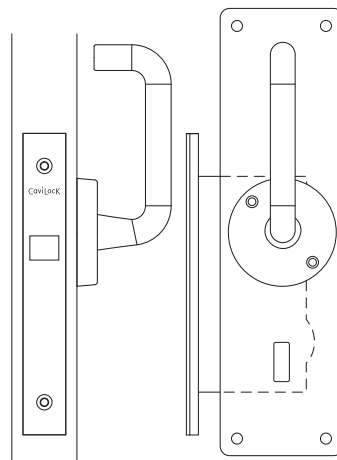

CS BarnDoorStrike

The CS BarnDoorStrike makes the CL400 Magnetic range of sliding door hardware compatible for barn door applications.

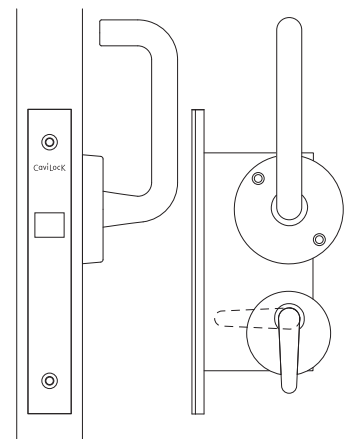

CL100 ADA LaviLock

The CL100 ADA LaviLock is designed with longevity of service in mind. The lever operated handle is easy to grasp and the door can be unlocked in one action from the inside.

CL100 ADA Lever

The CL100 ADA Lever's privacy turn is easily operable without pinching, grasping, or twisting of the wrist, ensuring the lock meets ADA Guidelines.

At CS Cavity Sliders, we set the standard for pocket door systems. Our mission is to continually evolve the industry by creating innovative, high-quality solutions that maximise space and enhance the aesthetics of any room.

Founded in 1986, CS Cavity Sliders began with a vision to revolutionize the design and manufacturing of sliding doors. From our humble beginnings in a small workshop, we have grown into a leading industry name, known for our commitment to excellence and innovation.

CS Cavity Sliders for everything interior and sliding.
