THERMALLY MODIFIED WOOD COLLECTION

VG Hemlock Siding

Elevate your project with the modern look of thermally modified vertical grain Hemlock siding. Each board showcases the natural beauty of a smooth vertical wood grain surface. It's the perfect substitute for cedar siding.

FEATURES

- 20-year limited warranty (rot/decay)
- 1x6 widths in 6-20-ft. random lengths (odd/even)
- Bevel, nickel gap and v-groove tongue and groove
- End-matched (nickel gap and v-groove)
- Interior and exterior applications

AVAILABLE PROFILES

1x6 T&G Nickel Gap (S4S)

1x6 V-Groove T&G (S4S)

1x6 Bevel (Resawn)

SAGE HEN, MULTIFAMILY
PARK CITY, UT

The thermal modification process stabilizes the wood with heat and pressure and makes it highly resistant to rot, shrinking and seasonal shifts, creating an exceptionally durable board. This process darkens the wood and natural mineral streaks may occur.

FEATURES

- All-natural heat preservation process
- Resistant to rot
- Dimensionally stable
- Will fade naturally to silver/gray
- Paint or stain for desired look

SPECIAL ORDER TRIMS:

1X4-1X8

Project Lookbook

JOB PACK QUANTITIES AVAILABLE.

NOTE: Color will vary from board to board and lot to lot due to natural characteristics of wood. It is recommended you purchase your entire job, plus a minimum of 10% overage to ensure most consistent color.
