

# Slat roof Lamaxa L60

All-round weather-resistant protection

*Der SonnenLichtManager*

The slat roof Lamaxa L60 gives you exactly the right amount of sun for your favourite spot in the garden. Thanks to the practical slat tilting, you can control how much sun you get. When the slats are closed, the slat roof offers reliable protection against rain.

## Features

<b>Max. width</b>	4,750 mm
<b>Max. projection</b>	6,330 mm
<b>Slats</b>	Slats are pivotable
<b>Drive</b>	WMS Radio motor
<b>Frame and slat colour</b>	Powder-coated in the fine texture surface quality in accordance with the WAREMA Colour World
<b>Installation</b>	free-standing, optionally wall connection

## The benefits for you

- Free-standing or mounted to the wall
- Power socket
- Sunlight can be individually adjusted with slat tilting
- Reliable weather protection when slats are closed
- Alternatively with additional pole to create a clear throughhole
- Optionally with an offset pole to create a roof overhang

## Brilliant extras

- Integrated awnings with easyZIP guidance for vertical shading
- Glass, wooden or aluminium sash frames for lateral visual privacy and/or weather protection
- Dimmable LED strips in the horizontal or vertical area, direct and/or indirect
- RGB lighting as an indirect lighting option
- Radiant heater
