WHY BUSCH?

Certified B Corporation™

We are proud to be a part of a global movement of people using business as a force for good™

With 40+ years' **Experience**

we know our stuff and love to share it!

We strive to maximize **Recycled Content** in our containers!

Tailored By You

Customization is our middle name!

Plasticbank

Busch Systems is directly contributing to five of the 17 United Nations Sustainable Development Goals.

The Most Trusted

#1 rated recycling & waste container brand according to Trustpilot.

Made in **North America** Promise

We're proud to be a **Living Wage Employer**

Giving Back

We support local and national charities.

We track our **Carbon Footprint**

on every product via CarbonGraph.

In an effort to produce a more sustainable catalog with fewer pages, we have intentionally not included all of our products here. Contact our sales team at 1-800-565-9931 or check out our website to see our full product line!

Printed on 100% Recycled Paper. FSC® Certified.

MISSION STATEMENT

To support everyone who cares about waste diversion with leading edge products and services that maximize the quantity and quality of their recycling program.

A MESSAGE FROM CRAIG BUSCH

Progress has never been accidental. At Busch Systems®, it's something we design for—intentionally, thoughtfully, and with a clear understanding of the impact our choices create. This year, I'm more energized than ever by the role businesses can play in shaping stronger communities, smarter systems, and a more sustainable future.

I've always believed that good design does more than solve problems—it inspires better thinking. Whether we're creating waste diversion solutions, reimagining how products are made, or pushing ourselves to operate more responsibly, our goal is the same: to make it easier for people and organizations to do better. For us, sustainability isn't a claim; it's a commitment backed by transparency, data, and accountability.

That commitment continues to guide our actions. From advancing our Certified B Corporation™ performance, to measuring and sharing the environmental footprint of our products through CarbonGraph, to supporting global plastic recovery initiatives with Plastic Bank, we

remain focused on turning intention into measurable results. Just as importantly, we continue to invest in education and dialogue—sharing insights, challenging norms, and helping move our industry forward through initiatives like our Green Thinking Webinar Series and Talkin' Trash.

Sustainability - environmental, social, and economic - requires a long-term view and the courage to lead differently. As innovators and problem-solvers, we're committed to building solutions that reflect that belief.

This year, there's a lot that I'm excited to share but for now, know that it represents another meaningful step forward. One that's driven by purpose, powered by design, and grounded in impact.

On behalf of everyone at Busch Systems, thank you for being part of what we're building together.

Craig Busch

Founder, President & Chief Design Officer

BUSCH BIM OBJECT LIBRARY

BIM OBJECT This icon indicates that a BIM file is available for this product series.

The Busch Systems BIM (Building Information Modeling) object library is crafted to enhance architectural and design projects that emphasize sustainability and effective waste management. Featuring a curated selection of BIM objects, this library showcases our diverse range of recycling and waste containers, thoughtfully designed for seamless integration into your digital models.

As champions of environmentally conscious design, Busch Systems is dedicated to delivering accessible and efficient solutions for sustainable projects. Through partnerships with leading BIM file providers, we ensure our products are readily available to support your design needs.

Tailored for architects, designers, and engineers, our BIM resources simplify workflows and help achieve waste diversion goals, enabling the creation of eco-friendly spaces that prioritize sustainability.

For more details and to access our available BIM files, visit our website and discover how Busch Systems can assist in bringing your sustainable designs to life.

 **CAN'T FIND WHAT YOU'RE LOOKING FOR?**
WE'RE HERE TO HELP. 1.800.565.9931

- **SUSTAINABLE BY DESIGN** – Made with recycled post-consumer plastics and engineered to use less material, reducing environmental impact without compromising strength.
- **BUILT FOR LASTING DURABILITY** – Double-wall doors resist warping, while mono-level construction and secure lids ensure long-term performance.
- **INTEGRATED SIGNAGE MADE SIMPLE** – Reinforced panels support secure, easy-to-change signage for stream labeling, branding, or revenue opportunities.
- **DESIGNED FOR REAL-WORLD USE** – Raised doors clear debris, smooth edges enhance safety, and a lightweight build makes servicing easy.

Smart Sort™ | Keeping it simple and sustainable

The Smart Sort Series is designed for high traffic areas that require a simple recycling and waste solution. This container is lightweight and completely modular to grow with the needs of your program. A sloped lid discourages litter on the top of the container, and flat surfaces allow for labels with clear messaging to ensure that materials are placed in the correct stream.

- Simple 4 piece construction for hassle-free setup.
- Slanted lid prevents discarded items from collecting on top of the bin.
- Encourage proper sorting of materials with simple labeling options, restrictive opening and eye catching colors.

Busch Customizations THINK OUTSIDE THE BIN!

Busch Systems recycling and waste containers offer a unique opportunity for complete customization. Whether you're looking to convey a specific message, reinforce your brand identity, or simply add a touch of creativity, we provide a versatile canvas for your vision.

From simple cut vinyl lettering, you can craft a clean and concise message, ensuring your recycling and waste bins communicate effectively, allowing essential information or branding to be displayed prominently.

For a more impactful branding experience, a full or partial wrap is the way to go. Busch Systems allows you to transform your containers into vibrant, attention-grabbing showcases of your brand. This not only serves a functional purpose, but also turns your recycling and waste bins into an integral part of your overall aesthetic and marketing strategy.

Thank You 

By choosing Busch Systems® you have already made the decision to be more sustainable. Thank you for being as passionate about the environment as we are. We appreciate your business and are thankful for 40 years of environmental collaboration!
