## YOUR WIRES DESERVE A **FORTRESS**

ORTECH's Electric Metal Boxes are engineered for durability and safety, offering robust protection for electrical connections in residential, commercial, and industrial applications. Crafted from high-quality steel, these boxes provide a reliable solution for securing electrical wiring, switches, and outlets, ensuring compliance with strict building codes and standards.

Designed to handle demanding environments, ORTECH metal boxes feature rust-resistant coatings and sturdy construction that safeguard against impact, corrosion, and electrical fires. Their versatile design allows for easy installation in walls, ceilings, and floors, offering flexible configurations for different electrical needs.

Whether you're wiring a new build or updating an existing space, **ORTECH's metal boxes** deliver exceptional performance.

#### **BOX 1004-LH**

Single Gangable Device Box

Application:	New Wor
■ Material:	Galvanize
■ Construction Type:	Assemble
■ Cover Included:	None
Knockout Options:	None
■ Size:	3"x2"x3"

■ Offers flexible wiring solutions with easy omization for any electrical setup

#### **BOX 1104-K**

**Steel Single Gangable Device Box** 

■ Application:	New Work
■ Material:	Galvanized S
Construction Type:	Assemble
Cover Included:	None
Knockout Options:	None
■ Size:	3"x2"x2-1/2"

■ Concentric knock outs & recessed ears

#### **BOX 1104-L**

Single Gangable Device Box With Flush

• Application.	MEN MOLK
■ Material:	Galvanized
■ Construction Type:	Assemble
■ Cover Included:	None
■ Knockout Options:	None
■ Size:	3"x2"x2-1/2

■ Offers flexible wiring solutions with easy

## SEAL THE DEAL, WITH SOLID STEEL

ORTECH's Metal Box Cover Plates are designed for durability and strength, offering solid protection for electrical boxes in residential, commercial, and industrial settings. Made from high-quality metal, these covers ensure safety and longevity, providing a secure seal that protects wiring and electrical components from dust, debris, and external damage.

Available in a range of sizes and finishes, ORTECH's metal box cover plates not only offer functionality but also add a clean, professional look to electrical installations. Their sleek design blends seamlessly into various environments, making them a versatile option for different projects.

Engineered to meet stringent safety standards, ORTECH's cover plates are easy to install and fit securely in place, ensuring electrical systems remain well-protected.

#### Metal Ceiling / Wall Cover

- Easily primed and painted to match or complement walls/ceilings
- Won't bow, crack or distort during installation
- Includes screw(s) in matching finish
- Cover surface is 1/4 in. from wall when installed
- Corners are contoured to fit handy boxes
- Cover mounts to devices

#### Plastic Ceiling / Wall Box Cover

- Comes ready to install with provided #8 screws or back out existing screws to accept notched bracket
- Deeper cover works with pan boxes without the need to cut the post
- Attractive cover plate After installation, screws don't show on the ceiling/wall
- Fits 3-1/2" and 4" round or octagonal boxes
- Paintable plastic cover plate eliminates the scratches you get with painted metal covers

## MOUNTING MADE EASY AND **EFFICIENT**

ORTECH's Recessed Lighting Housing is engineered for seamless installation and exceptional performance, providing a sleek solution for both residential and commercial lighting needs. Crafted from high-quality materials, these mounts ensure durability and stability, allowing for secure placement of recessed fixtures in various ceiling types. Their innovative design minimizes installation time, making them an ideal choice for contractors and DIY enthusiasts alike.

Designed to accommodate a wide range of recessed lights, **ORTECH's** housings offer versatility in application while maintaining an unobtrusive aesthetic. The mounts are compatible with different sizes and styles of fixtures, providing flexibility to meet diverse design requirements. This adaptability ensures that your lighting can be tailored to create the perfect ambiance in any space.

Safety is a top priority, and **ORTECH's** recessed lighting housings are built to meet rigorous industry standards.

## YOUR STYLE, YOUR

VISION

ORTECH's Recessed Lighting Trims are designed to enhance the aesthetic appeal and functionality of your lighting fixtures. Available in a variety of styles, finishes, and sizes, these trims provide the perfect solution for customizing your lighting design to suit any interior décor. Whether you're looking for a sleek, modern look or a more traditional aesthetic, **ORTECH** offers a range of options to help you achieve your desired ambiance.

Built with high-quality materials, ORTECH's Trims ensure durability and longevity while maintaining a stylish appearance. The easy installation process allows homeowners and contractors to quickly upgrade their recessed lighting, making it an ideal choice for renovations or new constructions. With a focus on both form and function, these trims are designed to seamlessly integrate into any ceiling and provide optimal light distribution.

Customization is at the heart of ORTECH's Recessed Lighting Trims, allowing you to create a lighting scheme that reflects your personal style.

## **GET** WIRED, FOR **SUCCESS**

ORTECH's Wiring Devices offer a comprehensive range of high-quality products, including receptacles, switches, dimmers, sensors, and timers. These devices are designed to meet the demands of both residential and commercial installations, providing reliable and efficient power management solutions. With a focus on safety and durability, ORTECH's products ensure that your electrical systems run smoothly and securely.

The receptacles and switches are built with user-friendly designs and premium materials, ensuring easy installation and long-lasting performance. ORTECH's dimmers and sensors allow for customizable lighting control, helping you create the perfect ambiance while optimizing energy efficiency.

ORTECH's timers and advanced wiring solutions help automate your electrical systems, offering energy-saving features for both indoor and outdoor applications.

■ Voltage: 125-250V AC Amps: ■ Base/Cover:

Polycarbonate ■ Power Contacts:

■ Terminal Screws: Polycarbonate ■ Frame: ■ Flammability: **UL 94V-2** -40°C~+65°C Operating Temp.:

■ Suitable for copper wires ONLY

#### DMD-LED-3

LED / CFL 150W Dimmable Single Pole **Three Way Decorator Dimmer Switch** 

■ Voltage: 0-10V AC ■ LED/CFL: 150W dimmable ■ Electronic Ballast/ 120V AC 6A LED: 277V AC 3A

Incandescent: 60Hz ■ Frequency:

Operating Temp.:

95%RH. ■ Humidity: non-condensing

■ Minimum light level (low-end) shall be adjusted to optimize performance

**PRECISION** 

DIMMER

**SWITCHES** 

**FOR PERFECT** 

LIGHTING

-0°C~+55°C

#### HET01-R

15A Programmable 7 Day Digital Timer With Daylight Saving Feature

Output: 120V AC ■ Frequency: 60Hz 1200W ■ Tungsten: ■ Resistive Rating: 1800W 15A

■ Motor: 0°C ~ +55°C Operating Temp.:

■ Built-in memory holds settings indefinitely without

#### DWOS

12 Amps Passive Infrared Sensor With **Ambient Light Level Sensor** 

■ Capacity Level: 120V AC/60Hz ■ Tungsten: 800W ■ Ballast: 800VA 1/4HP Motor: 15 sec ~ 30 min ■ Time Delay:

■ Light Level: 30 Lux — Daylight Operating Temp.: 0°C ~ +55°C

■ Detects difference between heat emitted from human body in motion & background space

#### HET06-R

Commercial Grade Preset In-wall Countdown Single Pole Timer

Output: 125V AC ■ Frequency: 60Hz ■ Tunasten: 1000W

■ Humidity: 95%RH, non-condensing

1/2HP Motor: ■ Time Delay: 5-10-30-60 mins / 2 or 4 hours

0°C ~ +55°C

■ Ideal for closet, pantry, garage, laundry room, outdoor lighting and spa

Operating Temp.:

#### **DMD-ELV**

**Electronic Low Voltage Dimmer Switch** With Single Pole 3 Way Wiring

■ Voltage: 120V AC ■ Wattage: 300W ■ Frequency: 60Hz

150W dimmable ■ LED/CFL: 95%RH. Humidity:

non-condensing -0°C~+55°C Operating Temp.:

■ Uses standard single pole and three way wiring for easy installation at home

#### **WM-DHOS**

Single Pole Humidity / PIR Motion Sensor

Output: 120V AC ■ Frequency: 60Hz

■ Humidity: 45%-80% RH 1/4HP ■ Motor: ■ Time Delay: 15 secs /

5-15-30 mins 0°C ~ +55°C Operating Temp.:

Compatible with incandescent, fluorescent, halogen, and LED Lighting

**EFFORTLESS** TIMING FOR YOUR **ELECTRICAL NEEDS** 

#### MPC-50V

10 Amps Line Voltage PIR Ceiling Mount Sensor For incandescent, CFL, LED lighting

■ Wattage ■ Input: 120-277V AC, 60Hz ■ Motor:

10FC to 150FC ■ Adjustable Light Level:

Adjustable Time 15 sec ~ 30 min Delay:

■ Coverage: 360°, up to 1200 ft<sup>2</sup> ■ Operating Temp: 0°C ~ +55°C

#### **UFOHB-SENSOR**

Mini Microwave Sensor Specifically Eligible For UFOHBS-200W

■ Wattage: 1mW Max.(Transmitting Power) < 0.3W(Stand-by

Power) ■ Input: 12-24V DC ± 1V ■ Working Output: 0-10V DC ■ Dim Interface: 1-10V Dimming <50mA(Non-con-

stant source) 5.8GHz ± 75 MHz, ISM Band ■ Grade Of Protection: IP65

Operating Temp: -35°C ~ +55°C 4

Compatible LED High Bays: UFOHBS-100W | UFOHBS-150W(sold separately)

#### OD-MC609V RC D

120-347V Waterproof Indoor Use Sensor For Vapour Tights, High Bays And LED Panels

■ Wattage: 0.5W Max.(transmitting power) <1.5W (stand-by power)

■ DC Input Voltage:

120V AC / 277V AC / 347V AC, 50/60Hz ■ Rated Voltage: ■ Working Mode On/OFF function, 1-10V step dimming

Output:

■ Dim Interface: < 50mA (non-constant source)

10% (1.4-1.6V) / 20% (1.9-2.1V) / 30% (2.9-3.1V) / 50% (4.9-5.1V)

5.8 GHz ± 75MHz, ISM Band Operating

Frequenzy:

Lifetime: 50000 hours ■ Grade Of Protection: IP65

■ Protection Class: Class II Environment Compliant to RoHS

Requirement:

■ Wiring: Input STW, 3\*18AWG exposed line length: 810-830 mm

1-10V DC: STJW, 2\*18AWG exposed line length: 810-830 mm 150° (wall mounting) ■ Detection Angle:

360° (ceiling mounting) ■ Hold Time: DIP switch: 5s / 30s / 1min / 3min / 20min / 30min

Remote control: 5s / 30s / 1min / 3min / 5min / 10min / 20min /

■ Stand-by Dim Level: DIP switch & Remote control: 10% / 20% / 30% / 50% ■ Stan-by Period:

DIP switch: 0s / 1min / 3min / 10min / 30min and so forth Remote control: 0s / 10s / 1min / 3min / 5min / 10min / 30min and

so forth DIP switch: 100% / 50%

■ Detection Area: Remote control: 25% / 50% / 75% / 100%

■ Davlight Sensor: DIP switch & Remote control: 5lux / 15lux / 30lux / 50lux / 100lux /

150lux / Disable (ambient light diffusion) ■ Detection Radius: 5-8m (mounting height 8m, maximum mounting height 15m)

■ Operating Temp.: -35°C ~ +55°C

Mounting height is maximum 15m

Has patented microwave antenna

■ Functions with remote controller MH01, and is easy to adjust sensor parameters

■ Works with 1-10V dimmable LED driver and easy to achieve 2-step or 3-step dimming function

#### OD-MC628VRC

LED High Bay Sensor That Supports High And Low Sensitivity Modes

Wattage: 0.5mW Maximum (transmitting power),

<1W (stand-by power)

DC Input Voltage: Rated Voltage: 120-277V

■ Working Mode 0-10V dimming

Output: ■ Dim Interface: 0-10V dimming, < 50mA (non-constant source)

5.8 GHz ± 75MHz. ISM Band Operating

Frequenzy:

Lifetime: 50000 hours

■ Grade Of Protection: IP65 ■ Protection Class: Class II

Compliant to RoHS Environment

Requirement: ■ Wirina:

UL1015, 2\*18AWG

exposed line length 810 mm / UL1015, 2\*22AWG

exposed line length 810 mm 150° (wall mounting) Detection Angle:

360° (ceiling mounting) ■ Hold Time: 5s/30s/1min/3min/5min/10min/20min/30min

■ Stand-by Dim Level: 10% (1.4-1.6V) / 20% (1.9-2.1V) / 30% (2.9-3.1V) / 50% (4.9-5.1V)

0s/10s/1min/3min/5min/10min/20min/30min and so forth Stan-by Period: 25%/50%/75%/100% Detection Area:

■ Daylight Sensor: Daylight threshold — 5lux/15lux/30lux/50lux/100lux/150lux/Dis-

able (no shadow or ambient light diffuse reflection)

Daylight priority — (5lux/15Lux/30Lux/50Lux)/150Lux

100Lux/200Lux 150Lux/300Lux

■ Detection Radius: 2-12m (mounting height 12m Max.)

■ Operating Temp.: -35°C ~ +55°C

Supports high and low sensitivity modes

For metal ceilings, metal reflector mounting environments

■ Compatible with 0-10V dimmable LED driver, easy to achieve 2-step or 3-step dimming function

**REMOTE-MH10** 

(sold separately)

## DING DONG, WELCOME HOME!

ORTECH's Wired Door Chimes provide a reliable, stylish way to announce visitors with clear and pleasant tones. Designed for easy installation, these door chimes seamlessly integrate with your home's wiring to deliver dependable, consistent performance. **ORTECH Door Chimes** are an excellent choice for both modern and traditional homes. Make welcoming guests a pleasant experience, combining functionality with a touch of elegance.

## POWER UP YOUR **PROJECTS**

**ORTECH** offers a comprehensive range of **essential** electrical components, including connectors, lamp holders, vapor barriers, plates, cords, and NMD90 staples, each crafted to meet high performance and safety standards. Built to last, these components enhance the quality and safety of any project, making **ORTECH** the go-to choice for dependable electrical supplies.

#### **OD-DRBL-A**

Wired Door Chime Kit w/2 Lit Up Push

■ Working Voltage:

Output: 120VAC

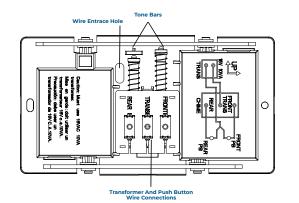

Transformer Input 16VAC, 10VA

■ Working Current:

■ Stand-by Current: Wired bell push button (with light):

> Wired bell push button (without light): <50mA

■ Operating Temp.: -20°C~+55°C

#### PACKAGE CONTAINS

- ■1 x Transformer
- ■1 x Chime
- ■2 x Wired Bell (lit-up) Push Buttons
- 10 x Mounting Screws
- ■2 x Anchors
- ■1 x User Manual

#### **COLOUR OPTIONS**

- OD-DRBL-A-WH (White)
- OD-DRBL-A-BK (Black)

#### 1/2IN CONN

1/2" Polymeric Resin Loomex Connector For Connecting NMD90 Loomex Cable

- 1/2" (13mm) 10/3-14/3 AWG ■ NM Wire size:
- Grade Of Protection: IP20
  - For metal junction box knock-out

12/2 AWG

■ Terminale non-metallic sheathed cable and suitable for a dry location box or enclosure

#### 3/4IN CONN

Red 3/4" PVC (polymerizing vinyl chloride)

3/4" (19mm)

6/3 AWG

- Trade Size: ■ NM Wire size:
- Grade Of Protection:
  - For metal junction
- Terminale non-metallic sheathed cable and suitable for a dry location box or enclosure

#### JDZ001

#### Plastic Keyless Lamp Holder

- Wattage: Voltage:
- No. Of Terminal
- For mounting on 3-1/4" or 4" octagon outlet box

#### JDZ003

#### Plastic Pull Chain Ceiling Lamp Holder

- Wattage: 250V AC Voltage: No. Of Terminal
- Light Bulb:

For mounting on 3-1/4" or 4" octagon outlet box

- E19 medium bas ■ Constructed with high-quality materials to withstand outdoor conditions
  - Grade of Protection: IP20

low voltage landscape lighting

For Landscape Lighting

MISCELLANEOUS 30

MAX 85DB FRONT DOOR TUNE, MAX 80DB BACK DOOR TUNE

LVT-CONN-100

■ Ideal for both small-scale and large-scale

■ Perfect match for 12 and 16 gauge wire of

100pc Pack Of Low Voltage Connectors

#### VB-S4

Commercial/Residential Grade Vapour Barrier For 4" LED Lighting

Material: Heavy duty polyethylene

■ Temperature Rating: +90°C ■ Target: Installations with 16" or 14" beam

centres Application: For 4" LED

■ Prevents airflow between living spaces & unconditioned areas

#### VB-S6

Commercial/Residential Grade Vapour Barrier For 6" LED Lighting

■ Material: Heavy duty polyethylene

■ Target:

Application:

■ Temperature Rating: +90°C Installations with 16" or 14" beam

> centres For 6" LED lighting

Controls moisture in areas such as basements, ceilings, crawl spaces, floors, walls

#### 8800-CL

Black Specialty Plate With Clear Cover, **Gasket, Mounting Hardware** 

One gang weatherproof cover and base

■ Can be used outdoors or in other wet

■ Impact resistant, UV stabilized, non-conductive

 Gasket with slits for mounting screws ■ Meets extra duty requirements for any

application Baggie assembly with mounting hardware

#### **Ground Plate**

High Quality Galvanized Steel Plate Used For Grounding

■ Major time & cost savings vs. ground rods

■ Wire size: 8 AWG to 2/0

■ Includes a 5/8 in. bronze ground connector/clamp when purchased ■ 5.8 mm thickness

#### CORD24

## POWER YOUR ELECTRIC JOURNEY The ORTECH EV Series Charger Plugs are innovative, high-performance charging solutions designed for electric vehicles. Built to meet North American standards, these durable and energy-efficient plugs ensure fast, reliable charging at home or on the go. Featuring sleek, compact designs and user-friendly interfaces, they offer seamless compatibility with most EV models, prioritizing safety and convenience.

The **ORTECH NEMA 3R A/C Disconnect** is a durable, weather-resistant switch designed for safely cutting power to an air conditioning unit during maintenance or emergencies. Engineered for outdoor use, it provides reliable protection against rain, snow, and other environmental factors. **ORTECH's A/C disconnect** delivers long-lasting performance and peace of mind.

#### EV-14-50-R

NEMA Type 14-50R,50A 125/250V in Metal Enclosure

■ Product Size
 ■ Operating Ambient
 -20°C ~ +85°C

■ Storage -20°C ~ +60°C Environment

Case Quantities

#### PACKAGE CONTAINS

- ■1 x Metal Box (Q195,T=1.6mm. Powder painting Coating)
- ■1 x Outlet (NEMA Type 14-50R,50A 125/250V)
- ■1 x Parts Package

#### HIGHLIGHTS

- Suitable for copper wires ONLY
- 4 pre-drilled holes to suit installation in any direction
- Metal spring lock button to secure the outlet box cover in place
- Anti-Theft blank holes allow installation of pad lock for enhanced security
- Packaging includes 3 covers with different sized holes (1/2", 3/4" and 1"), allowing you to choose from various thread sizes

#### MULTIPLE POWER CABLE SOURCE

#### AC-DC-60AMP

NEMA 3R A/C disconnect, a weather-resistant switch for safely cutting power to an AC unit

- Rated CurrentRated Voltage
  - /oltage 2
- No. of Fuses Nor ■ No. of Wires 2 W
- Case Quantities

#### HIGHLIGHTS

- The purpose of the A/C disconnect is to offer a viable solution to prevent unauthorized personnel from harming themselves by tampering with the A/C (air conditioning) system circuit
- Cover and enclosure of disconnect switch feature convenient holes to apply traditional pad locks, making the fixture tamper proof
- NEMA 3R weatherproof rating ensures this unit is safe to install outdoors through every season
