ELEVATE YOUR AIR QUALITY

ORTECH's DC Motor Bathroom Fans offer superior ventilation with energy-efficient DC motors designed to maximize performance while minimizing power consumption. These fans deliver consistent airflow, ensuring that your bathroom stays fresh and free from excess humidity, all while lowering your energy bills.

Known for their ultra-quiet operation, these fans provide powerful ventilation without the disruptive noise, creating a peaceful and comfortable bathroom environment. The sleek design and durable build make them a perfect addition to any modern bathroom, blending seamlessly into the space.

Installation is quick and easy, with versatile options to suit various bathroom sizes and needs. **ORTECH's** DC motor fans are also designed for longevity and low maintenance, ensuring reliable air quality control while protecting your bathroom

WHERE **FUNCTION MEETS FASHION**

ORTECH's bathroom fan grilles are the perfect accessory for upgrading your ventilation system. Designed to complement both AC and DC motor bathroom fans, these grilles blend functionality with style, ensuring that your bathroom stays fresh and inviting. With a sleek design, they effortlessly fit into any décor while providing optimal airflow to eliminate odors and moisture.

90

Crafted from high-quality materials, ORTECH's grilles are built to last. They feature a durable finish that resists corrosion and wear, ensuring long-term performance in the humid bathroom environment. Installation is a breeze, allowing you to quickly upgrade your existing setup or complete a new installation with ease.

Beyond just aesthetics, these grilles play a vital role in improving indoor air quality. By effectively directing airflow, they help reduce humidity levels and prevent the buildup of mold and mildew.

BOOST THE POWER OF YOUR DRYER

ORTECH's Dryer Booster Fans are designed to enhance the efficiency of residential and commercial dryer systems by improving airflow. These fans help reduce drying time, prevent lint build-up, and minimize the risk of dryer overheating by boosting the ventilation in long duct runs. The compact and energy-efficient design ensures seamless integration into your existing HVAC setup, making it a reliable choice for maintaining dryer performance v extending its lifespan.

ENHANCED COMFORT AND **EFFICIENCY**

ODDIN

SERIES

The ORTECH ODDIN Universal Series Inline Fans are designed to provide efficient and continuous ventilation with unmatched convenience. Featuring a built-in low-speed controller, these fans are engineered to run 24/7, ensuring that local building code requirements for continuous air circulation are easily met. This makes them ideal for both residential and commercial environments where constant airflow is essential.

One of the standout features is the built-in time delay, allowing the fan to keep running for an additional minutes after being turned off. This delay ensures complete ventilation, further enhancing air quality and energy efficiency. Whether you're managing moisture or odors, this feature offers customized control for any space.

Capable of ceiling or wall mounting, these inline fans are designed for quiet, discreet operation.

MAXIMIZE AIRFLOW, MINIMIZE ENERGY The **ORTECH ODDMF Series** Inline Fans feature advanced mixed flow technology, offering a combination of inline fans and mixed flow silencers designed for optimal air movement. These fans utilize cutting-edge brushless EC motors equipped with Hall IC technology, ensuring reliable performance and precision control. One of the standout features of the ODDMF Series is its remarkable energy efficiency. These fans operate at significantly lower power consumption levels compared to average fans, making them an environmentally friendly choice while reducing operational costs. The innovative design promotes quiet operation, enhancing comfort in both residential and commercial spaces.

OD-ERV 150AC

Energy Recovery Ventilator With Efficient Cross-flow Core & Pressure Ports for air balancing

- Has 6" duct connections and 6 ft power cord
- MERV 6 filters standard with MERV 13 option for OA stream
- 30-100% speed control built-in for OA and RA air-streams for balancing and reducing airflow per requirement
- Efficient cross-flow core and pressure ports for airflow balancing
- Temperature sensor to limit operation during very low temperatues
- Run time per hour at low speed setting, 0-60 min per hour
- Auto-reset thermal overload protection on motors and no
- CSA standard C439-18 complia

OPTIONAL

Manual override switch (MOS) can be used in conjunction with a powered wall mounted delay timer, using a plug-in relay (not included), to boost the unit into high-speed operation for specified time.

INVISIBLE OUTSIDE, INCREDIBLE INSIDE!

The innovative heat pump **SOLO** without an outdoor unit offers a game-changing solution for ultimate climate control. Designed with a compact and sleek profile, it eliminates the need for bulky external components, making it perfect for urban spaces, apartments, and homes with limited outdoor areas. This smart design not only enhances the aesthetic appeal of your home but also simplifies installation and maintenance, providing a hassle-free experience.

Despite its compact size, this heat pump packs a powerful punch when it comes to heating and cooling. Advanced technology ensures efficient performance, delivering cozy warmth in the winter and refreshing coolness in the summer—all while keeping energy consumption in check. With its whisper-quiet operation and precise temperature control, you can enjoy a comfortable indoor environment without disruptions.

CRTECH

All-in-One Heat Pump Providing Compact Power For Ultimate Climate Control

- Sleek, All-in-One Design: Revolutionary heat pump system with no outdoor unit.
- Energy Efficient & Quiet: Advanced inverter compressor and variable-speed motor ensure high efficiency and whisper-quiet performance.
- Effortless Installation & Operation.
- Venting Through Two Wall Ducts: Efficiently expels and intakes air through just two small wall ducts, reducing structural impact.
- Dual Functionality (Heating & Cooling): Enjoy year-round comfort with seamless heating and cooling in a single, energy-efficient unit.
- Drain pan heater: Helps evaporate water in drain pan to reduce chance of freezing.

SIZZLE WITHOUT THE **SMOKE**

ORTECH's Kitchen Rangehoods are designed to combine powerful ventilation with sleek, modern design, keeping your kitchen smoke-free and stylish. With their high-performance motors, they quickly eliminate cooking odors, smoke, and grease, ensuring a fresh and comfortable cooking environment. The rangehoods come in a variety of designs and finishes, making them a perfect fit for any kitchen style.

In addition to performance, ORTECH rangehoods feature user-friendly controls and bright LED lighting to illuminate your cooking space. Their quiet yet efficient operation ensures that you can cook in peace without the disruptive noise of traditional ventilation systems, making them an essential kitchen appliance for both home chefs and casual cooks alike.

Whether it's a quick meal or a dinner party, ORTECH Kitchen Rangehoods ensure reliable, efficient ventilation to keep your kitchen clean and fresh.

FEEL THE HEAT, NOT THE BILL ORTECH Heaters are designed to provide powerful, efficient heating solutions for a wide range of spaces. Whether you need reliable warmth in residential, commercial, or industrial environments, ORTECH heaters deliver consistent heat output while maintaining energy efficiency. Their advanced technology ensures rapid heating, making them perfect for those cold winter months. With various models, including infrared carbon heaters and electric options, ORTECH heaters are built to suit different needs and preferences. They come equipped with features like adjustable thermostats, overheat protection, and multiple safety measures, offering both convenience and peace of mind. Easy to install and maintain, **ORTECH heaters** are crafted to withstand tough conditions while blending seamlessly into any space. Their sleek, modern designs make them a perfect addition to homes, offices, or workshops, ensuring you stay warm and comfortable year-round.

Commercial Grade Robut And Waterproof Infrared Carbon Heater With Remote Control

120V AC

■ Material: Aluminum, Plastic

■ Phase:

■ Rating: Indoor and outdoor

■ Grade Of Protection: **IP55**

■ Coverage Area: 172.2-257.6 ft²

For both ceiling and wall mounting, Produces

APPLICATION

Robust and weatherproof heater designed for commercial and residential heating applications for indoor and outdoor places like:

Restaurant / Garden / Stairways / Patios / Decks / Balcony areas / Walkways, etc

HS-CH 2500W

Commercial Grade Robut And Waterproof Infrared Carbon Heater With Remote Control

240V AC

■ Material: Aluminum, Plastic

■ Phase:

■ Rating: Indoor and outdoor

■ Grade Of Protection: IP55

183-279.9 ft² ■ Coverage Area: ■ Control: ON/OFF switch

For both ceiling and wall mounting, Produces

CONTROL THE AIR, MASTER THE COMFORT With advanced sensors, speed controllers, and timers, these controls allow for seamless adjustments, ensuring that the temperature, airflow, and energy usage are optimized at all times. Whether it's for residential or commercial spaces, ORTECH HVAC controls help maintain a balanced indoor climate with minimal effort. The inclusion of smart sensors enables real-time feedback, automatically adjusting system performance based on environmental conditions. Speed controllers offer flexible options

Amp Sensor With High Current AC Switch And Dryer Control

■ Time Delay: None | 5 mins | 10 mins | 15 mins TRIAC Output:

■ Switch V: 120V AC ■ Switch I: 2.5 Amps ■ Leakage: ~0.5 Amp ■ Input I Min: 50 Amps ■ Input I:

■ Designed to mount in a standard electrical box

■ Only two wire connections needed for easy

SPEED CONTROLLER

SPEED CONTROLLER

ROTARY POLE SPEED CONTROLLER

CONTROLS 37

ODC-SCK

Speed Controller For Next Generation **Compact Series Fans**

COMPATIBLE FANS

- Accessible speed adjustment
- The sensor mounts into the fan with two pre-drilled holes in a standard receptacle
- Allows for continuous adjustable speed control as per Ashrae 62.2, with high speed override

ODM-SCK

Speed controller For Next Generation Micro **Compact Series Fans**

COMPATIBLE FANS

- Accessible speed adjustment
- Simple plug fits into fan housing and Can be installed with a new existing fan
- Allows for continuous adjustable speed control as per Ashrae 62.2, with high speed override

OD-SCV-5A

Fully Variable 5 Amps Rotary Pole Speed Control For ORTECH AC And DC Motor Fans

120V/60Hz

Fully Variable

Voltage:

■ Amps:

■ Type:

■ Pole:

■ Has single pole with 7711 stainless steel

- The colour of the knob is ORTECH white
- The principle of the knob is from low to high with mark and also mark OFF in the wallplate

SPEED CONTROLLER

SMART SPEED CONTROLLER

ROTARY POLE SPEED CONTROLLER

ODD-SCK-500

Speed Controller For ODD-400 And ODD-500 Fans

COMPATIBLE FANS

- Accessible speed adjustment
- Simple plug fits into fan housing and Can be installed with a new existing fan
- Allows for continuous adjustable speed control as per ASHRAE 62.2, with high speed override

ODDMF-ST

6 Speed Smart Controller With Thermal

COMPATIBLE FANS

- Monitor environmental temperature
- Accurate ventilation and energy savingwith mode selection of Manual, Auto and Alert
- Supporting control of up to 4 EC fans

OD-SCV-10A

Fully Variable 10 Amps Rotary Pole Speed Control For ORTECH AC And DC Motor Fans

Voltage ■ Amps:

120V/60Hz 10A

■ Type: ■ Pole:

Fully Variable

- Has single pole
- The colour of the knob is ORTECH white

The principle of the knob is from low to high with mark and also mark OFF in the wallplate

IN-WALL

15A Programmable 7 Day Digital Timer With Daylight Saving Feature

120V/60Hz ■ Voltage:

■ Tungsten Rating: 1200W ■ Resistive Rating: 15A ■ Motor Load:

■ Operating Temp.: 0°C ~ +55°C

■ Large digital LCD display

- Both automatic / manual operation possible
- Built-in memory holds settings indefinitely without power

IN-WALL

HET06-R

- Large digital LCD display
- Built-in memory holds settings indefinitely without power

Countdown Single Pole Timer

Voltage: 1000W ■ Tungsten Rating:

Resistive Rating: 15A ■ Motor Load: 1/2HP

Operating Temp.: 0°C ~ +55°C ■ Humidity:

non-condensing

- Both automatic / manual operation possible

DAMPER

FIRE DAMPER-ODC

Compact Series Fans Only

COMPATIBLE FANS

ODC SERIES

- Fire Resistant: Up to 3 hours
- Includes fiberglass cover and ceramic fiber
- Comes with roll-framed frame made of galvanized steel

ODD SERIES & OD-PB SERIES

- Fire Resistant: Up to 3 hours
- Includes fiberglass cover and ceramic fiber
- Comes with roll-framed frame made of galvanized steel

6" Dual Size Lint Trap Suitable For 4" And 5" Diameter Duct

- Easy to clean
- Magnetic door
- Stainless steel mesh filter screen for long life
- Powder coated finish for increased durability
- 115.63 sq. inch filtering area, increasing dryer

Fire Damper For The Next Generation **Universal Series Fans Only**

COMPATIBLE FANS

■ 165°F fusible link and Meets or exceeds NFPA-90A

Fire Resistant: Up to 3 hours

- damper serviceability

■ Separate outer frame allows complete fan and

DUCTWORK

ADA 4 to 6

Universal Series Adapter From 4" Duct to 6"

■ Fits all round duct designs

ADA 6 to 4 (P)

Polymeric Adapter From 6" Duct To 4" For Ventilation Fans

■ Polymeric adapter

LINT TRAP-DS-SL

Dual Size Lint Trap Suitable For 4" And 5"

- Stainless steel mesh filter screen for long life
- Powder coated finish for increased durability
- 115.63 sq. inch filtering area, increasing dryer

Diameter Duct

- Length of the lint trap is 63.5cm (635mm)
- Glossy white face + no painted body

AIR VALVES

Polymeric Air Valve For Air **Supply And Exhaust**

PAV-B

- To be mounted into round duct by mounting frame
- Polypropylene body with adjustable core and thread
- Available in 4", 5", 6", 8" sizes

ACCESS

FLUSH ACCESS

DOOR

SAV

Steel Supply Air Valve With Adjustable Core

- 50mm mounting frame ■ Supplied with galvanized
- steel mounting framed 12" sizes Available in 4", 5", 6", 8" sizes ■ Can function in both
 - horizontal and vertical positions

DAMPER

BDA

Back Draft Damper For Airflow

Control In Ventilation Systems

■ For mounting between ducts

Available in 4", 5", 6", 8", 10",

CAD

Access Door To Inspect And Maintain **Circular And Spiral Ventilation Ducts**

■ Inexpensive curved access door

- Polyamid knobs ensure a quick re-installation of the door without the need for any tools
- Shape allows the back plate to be passed through the duct openings, and the neoprene gasket on the back plate
- Grants easy access into sheet metal ductwork systems for resetting dampers, cleaning filters, or regular maintenance

FAP-18x18 | FAP-24x24 | FAP-30x24 | FAP-30x30 | FAP-38x26

Flush Access Panel With Welded Frame And Strong Durable Bended Door Lid

- Screwdriver operated cam latch
- Good value for all plumbing, electrical, mechanical applications
- Easy installation no further painting required
- With its concealed hinge, the door leaf can be opened from either left or right
- With its concealed hinge, the door leaf can be opened from either left or right

DRYER BOXES

ODB-100

Residential Grade Wall

Recessed Metal Dryer Box

■ Places dryer flush to wall

without crushing exhaust hose

■ With a round hose hole

or restricting airflow

■ Fits 2x6 stud size

ACCESS

MUD ACCESS

DOOR

ODB4-100

Residential Grade Wall Recessed Metal Dryer Box

- With an oval hose hole
- Places dryer flush to wall ■ Applicable for most building without crushing exhaust hose codes or restricting airflow
- Made of heavy duty ■ Fits 2x4 stud size polyethylene

VAPOUR BARRIER

VB-6-S

Commercial/Residential Grade

Vapour Barrier For Fans

■ Helps control moisture

IAD SERIES

Indoor Access Door For Typical Ductwork. Safety Chain & Neoprene Gasket Included

- Comes with retaining chain between door &
- Offers convenient quick access to volume control dampers, coils, filters & equipment

MAP-18x18

MAP-24x24

MAP-30x30

Mud Access Panel That Comes With Wet

■ Screwdriver operated cam latch

Wall Set Bead Edge

- Good value for all plumbing, electrical, mechanical applications
- Easy to install adjustable fixing flat
- The door leaf can be left or right opened; fully concealed door hinge
- Paintable gray powder coated finish provides high durability and corrosion protection

ACCESSORIES 40

LINT TRAP TO CATCH LINT

ACCESSORIES 3

Fire Damper For The Next Generation

- Ceiling radiation damper with 3 hour rating and

FIRE DAMPER-PB

Fire damper For All ORTECH Universal And **Premium Series PB Fans**

COMPATIBLE FANS

- Ceiling radiation damper with 3 hour rating and

LINT TRAP-DS 6

- Glossy white face + no painted body

VENT SMARTER, LIVE HEALTHIER!

TIPS FOR HAVING PROPER HVAC VENTILATION

- 1. Regular Filter Changes: Replace HVAC filters every 1-3 months to maintain optimal airflow and improve indoor air quality.
- **2. Clean Air Ducts:** Schedule professional air duct cleaning every 3-5 years to remove dust, allergens, and debris that can obstruct airflow and reduce system efficiency.
- **3. Check Vent Locations:** Ensure vents are not blocked by furniture or curtains to allow for proper air circulation throughout your home.
- **4. Use Exhaust Fans:** Utilize exhaust fans in kitchens and bathrooms to remove excess moisture and pollutants, reducing the strain on your HVAC system.
- **5. Seal Duct Leaks:** Inspect and seal any leaks in your ductwork to prevent air loss and improve the efficiency of your HVAC system.
